Day 1

Wednesday 12th June

UK to São Paulo

The group left UK on an overnight flight to São Paulo

Day 2

Thursday 13th June

Pouso Alegre

The group arrived in Cuiabá at 11:15 and after gathering everybody for a program brief, after which we left Cuiaba on an air-conditioned van towards the Pantanal adventure.

On the way before the town of Pocone, we stopped to stretch our legs, by Capybara Lake, at Fazenda Sao Francisco, which we saw the two pairs of Capybaras, Southern Lapwings, Black-collared Hawks, Wattled Jacanas, Snail Kites and Bare-faced Ibis.

We arrived in the small town of Pocone, around 13:00 and, we did a comfort stop, for about 15 min, before continuing back on the road to meet our safari truck, with bucket seats.

We arrived at the truck at 14:30, and after preparing ourselves with flashlights, dusk buffers or bandanas, sun lotion, bugs spray, we packed the bags in the back of the vehicle for the next five hours of slow driving looking for wildlife.

At 14:50 o'clock we started our journey on the safari truck along the Transpantaneira, and by 15:00 o'clock, we got notified of a Giant Anteater that was 500 m away from the main entrance of the Transpantaneira road park. He had been walking on the right side of the road, in a flat beautiful green wet land and we first saw it 50m away, but eventually we started to walk further and further, however everyone was delighted with such view of one the most elusive animals of the Pantanal.

The adventure continued as we had lots of cameras with empty cards, Marcos said he had to do something about that, stopping at every single bird close to our safari vehicle. The view was incredible we could see so much better from this vehicle than what we could see from the air-conditioned van.

We came across several birds, such as Limpkins, Savanna Hawks, Black-collared Hawks, Hyacinth Macaws, Monk Parakeets, Peach-fronted Parakeets, Picazuro Pigeons, Bare-faced Ibis, Buff-necked Ibis, Yellow-billed Cardinal, Striated Heron, Great Egrets, Cattle Egrets, Cocoi Herons, Anhinga, Neotropical Cormorants, all by the road 20 to 50 meters away from our safari vehicle.

On the way Marcos sighted some Black Howler monkeys in the woods, and after some time everybody got a good view of it. We saw several Cayman in great light, reflecting on water, we had to get photos of that. They were so amazing.

At 17:10 we Stopped in a favourite spot for the sunset, we had such an incredible sunset show, while we were having our Naturetrek courtesy sundowners, accompanied by salted coated and spicy peanuts. Just before getting dark, we saw some Nacunda Nighthawks starting their flights to catch bugs.

AT 18:00 we stopped at the entrance of Pouso Alegre Lodge, where Marcos planned to use the spotlight and drive slowly as we drove in towards the Lodge. On the way we saw a Crab-eating Fox, and some Crab-eating Raccoon, but the Raccoons were too fast to see. We stopped besides some Cayman lagoons and everybody used their flashlights to see the Caymans reflective eyes! Before the Lodge we had a very nice view of a Great Horned Owl.

We got at the Lodge at 19:00 already dark, we checked in, and with the help of the owner, we were given, instructions about air conditioners, hot showers etc. We had dinner at 19:40, and after dinner we updated our checklist after the first long, but very nice day. with timings and program for next day.

Day 3

Friday 14th June

Pouso Alegre

We started at 04:30 today, we heard that a Puma had been sighted recently in the surrounds of the lodge, we were also really looking forward to find a Tapir this morning, and right at 05:30 we nailed a female Tapir at 50 m far from the vehicle, where everybody had a great view.

We stopped for the sunrise at the forest to look for Narrow-billed Woodcreeper, Red-billed Scythebill, Great Egrets, Snowy Egrets, Roseate Spoonbill, Great Kiskadee, Little Woodpecker, Solitary-black Caciques and a Jabiru on the nest.

Mammal-wise we saw a Crab-eating Raccoon, Crab-eating Fox, Red-brocket Deer, Tapir, Feral Pigs, etc. We headed back in order to arrive at 07:30 for breakfast.

At 08:30, we got together again to check the backyard feeder, that usually has so much to see, we sat there for a while and we saw the biggest toucan of the Pantanal the Toco Toucan.

The group then walked around the backyard, where we had some beautiful views of Peach-fronted Parakeets, Monk Parakeets, Cattle Tyrants, Thrush like Wren, Ruddy ground Dove, Saffron Finch, Wood Stork and Vermilion Flycatcher.

It was getting very hot already by 10:00 so it was recommended the group drank enough water and stay in the shade, and later check the backyard bird feeder for more toucans.

We met again at 12:30 for lunch, everybody nice and refreshed. Just before lunch was completely served Marcos heard Black- tailed Marmosets one hundred meters far from us on a massive Ficus tree in front our restaurant, and he got everybody out to have a good look of those. After lunch we had a short presentation about Tapir.

At 14:30 we started on the truck safari on a slow birding drive, stopping at every single bird, in good light, such as kingfisher with a fish on its beak, female Snail Kite, Savanna Hawk and Black-collared Hawk.

At 15:00 we left the vehicle to go for a walk to check the Cayman Pool and the marshland area. As soon as we stopped, we heard a White Woodpecker calling in the marshes and had a great view of it. We photographed Roseate Spoonbill, Amazon Kingfisher, Black-backed Water-tyrant, Anhinga, Neotropical Cormorants, Grayish Saltator, etc.

We got back on the truck and continued driving towards a high savanna area of the road, which is a tapir corridor, we had great views of Southern Caracaras, Scaly-headed Parrots, Blue-fronted Amazon, Buff-necked Ibis, Epaulet Oriole and Creamy-bellied Thrush.

At 17:00 we turned around and looked for a nice spot for the sunset, as we were drinking our sundowners. A Tayra flashed across the road seen only by a few people, but about ten minutes later it crossed back and stopped on the road to check us out, this time everybody getting views.

After Sunset we headed back to lodge spot lighting on the way, we saw some very nice Common Pauraque, Spot-tailed nightjar, Great Potoo and Black-crowned Night Heron etc.

We got back at the lodge at 19:00, and at 19:30 we met again for dinner and to update our check list.

Day 4

Saturday 15th June

Pouso Alegre

We started again at 04:30 for the sunrise game drive using our safari truck. At 05:15, we found a Tapir which we watched and photographed for 30 min. We left the Tapir eating grasses and, on the way back, we found some Crab-eating Foxes. We started to head back towards a very active wetland.

Just before we started walking to cover the wetland birds, we had coffee with salty biscuits and sweet oreos, while we were delighted with an amazing sunrise right by the roadside where we had parked our Vehicle.

We took a walk until 07:15, and we saw a lot birds, such as Red-billed Scythebill, Narrow-billed Woodcreeper, Red-crested Cardinal Chalk-browed Mockingbird, Saffron Finch, Limpkins, Wattled Jacana, White-faced and Black-bellied Whistling Ducks, Rusty-collared Seedeater, Guira Cuckoo, Common Tody Flycatcher, Baywing Cowbird, Chopi-Blackbird, Long-tailed Ground-dove, Blue-fronted Amazon etc.

We got back for breakfast at 07:35, and after we met again for a short walk on wooden walkway that crosses the wetlands 1.5 km far from the lodge. We had great views of the Scarlet-headed Blackbirds, Unicoloured Blackbirds, Savanna Hawks, Yellow-chinned Spinetail, Amazon Kingfisher, Mato Grosso Antbird, Little Woodpecker, Glittering-throated Emerald, Vermilion Flycatcher, Thrush-like Wren, Great Kiskadee etc.

We headed back to the lodge at 10:30, to relax, keep cool and take on water.

We met again at 12:30 for lunch and after we had a short presentation about Giant Anteaters.

At 15:00 we left on a safari truck game drive to look for more wildlife. Just before we started out drive Marcos found a Ferruginous Pigmy Owl near our truck. We saw a lot birds, such as Orange-backed Troupial, Roadsided

Hawk, Bare-faced Ibis, Sayaca Tanager, Cattle Egrets, Great Egrets, Gray-necked Wood Rail, Picazuro Pigeon, Scaled Doves and Monk Parakeets.

We drove along the main entrance road during the afternoon again, and stopped at a water hole for the sunset. We were sitting there for 45 min waiting for a tapir, having sundowners, with salted peanuts.

We headed back spot lighting for more mammals, and planned a stop and call the Gray Potoo which came right by the vehicle. Passing by one the bridges we saw a Bulldog Bats, a Greater Fishing Bats.

We met again at 19:30, updated our check list, and talked about the plans for the next day, which included an early breakfast at 05:30 and departure at 06:00 towards Porto Jofre Jaguar land.

Day 5

Sunday 16th June

Pouso Alegre Lodge, drive Porto Jofre

We got up at 05:00 to organize our bags, and at 05:30, most clients came out rolling their big bags to be packed while they were eating breakfast. We left the lodge at 06:15 and our first loo stop, was at 07:45, at the Hotel Matogrosso, where we stretched our legs, and we drank coffee, with salted pit stop biscuits, and oreos. we saw Shiny Cowbirds and Rufous-bellied Thrush, Baywing Cowbird and Saffron Finches at the hotel's feeder.

We left at 08:15, and we came across a herd of 1000 cattle on the road. We got to Jaguar Lodge, at 09:45 for another comfort stop, and also sighted a Crimson-crested Woodpecker that flew from the forest directly to his nest on a palm tree in front of the lodge. We left Jaguar Lodge at 10:15, and on the way to Campo Jofre we sighted a pair of King Vulture flying way up high, we tried our very best to photograph their flight, but they were faster. On the way we stopped briefly to see Southern Screamer, White-headed Marsh Tyrant, White-banded Mockingbird, Hyacinth Macaws, Capped Heron and Capybaras.

We got to Neco's Fishing Camp at 11:45, for a comfort stop before we got to the Jaguar Flotel, arriving by 12:45. After a lovely meal, we were assigned our rooms and then we went out on our first excursion to look for Jaguars. At 15:00 we had our first glimpse of the almighty cat, for about 30 seconds before vanishing into the bushes. We received another Jaguar call we went to check a mating pair, that melted into the bushes. We went to check a second mating pair at the Black Channel but they were in the bushes as well. We saw Large-billed and Yellow billed Terns, Black-tailed Tityra, Cream-collared Woodpecker, Collared Plover, Pied Lapwing, Cocoi Herons, Anhingas, Black-fronted Nunbirds etc. We finish our day parked on a quiet bend in the river, having sundowners on the boat, watching the moon rise!

We had dinner at 19:00 and after dinner we updated our check list. At 20:00 we had a presentation about Jaguars.

Day 6

Monday 17th June

Jaguar Land

We had breakfast at 05:30 and at 06:00 we were on the water looking for more Jaguars, and at 06:15 we watched the sun rising from behind the trees. It was gorgeous! we found a Black-howler Monkey at 06:30 alone on top of the trees, and in the same tree Toco Toucan with the beautiful golden hour light shining on his beak.

At 07:00 we found a family group of three Giant Otters, swimming 15 m from the boat, and followed them for 20 min, but at 07:25 we got a jaguar call. The Jaguar was hiding in the bushes and there was no view - all we could see was 3-4 rosettes on its back. We anchored our boat and waited and at 08:10 the Jaguar got up, and moved to sit in the dappled light in full view. Soon it moved again, and came completely out of the vegetation onto the side of the bank for everyone to get excellent views.

At 08:45 another Jaguar called was notified on the radio of our boat, it was the mating pair that had been hidden yesterday. we got there quickly with our 150 Hp Yamaha engine, but the cats were still the bushes. After 15 minutes, both animals walked along the bank - partially obscured by the vegetation, but still giving reasonable views. This was clearly a pair that were staying together for several days to mate. We left the cats in the bushes and we went to check the end of the Black Channel, where we found good birds like Southern Beardless Tyrannulet, Golden Green Woodpecker and Rusty-backed Spinetail,

We came back to the flotel by 10:30 once the temperature was getting hotter and hotter. lunch was at 11:30

At 15:30 we went out looking for more Jaguars, and Giant Otters, we did not see any but we decided to go on a small and narrow river, in order to get close up to water birds. Moored at the side, we had good views of a variety of forest birds - several were picked up on call, and then lured closer using recordings - such as Pygmy Kingfisher, Amazon Kingfisher, Gray-crested Cacholote, White-wedged Piculet, Golden Green woodpecker, Boat-billed Heron, Rusty-backed Spinetail, and Rufous Tailed Jacamar.

We came back to the Flotel at 17:55 in the dark surrounded by up to 50 Greater Fishing Bats, and about the same number of Band-tailed Nighthawks and we had dinner at 07:00 followed by our check list. At 20:00 we had a presentation about Giant Otters!

Day 7

Tuesday 18th June

Jaguar Land

We got out at 06:00 this morning at 06:15 we found two female Black Howler Monkeys on top of the tree warming up at sunrise. At 07:22 we found our first Jaguar shared with only 5 boats. we had great and prolonged views as it walked on the river bank, and then later swam alongside the bank, and then across the river.

At 08:22 the Jaguar was sighted again, 300 m away. This time there had been 8 boats sharing the same cat. These were amazing and prolonged views of the animal obviously hunting - walking and swimming on the edge of the capybara grass, and pausing on the sandbanks to look for prey. We watched the cat uninterrupted for more than 15 minutes. Between the two sightings we saw two Black-capped Capuchin Monkeys, Forest Elaenia and Short-crested Flycatcher.

Everyone was tired after such an exciting morning, and many were asleep on the boat back to the Flotel - only to be awakened by another Jaguar swimming across the river right in front of our boat - a private last viewing! We got back at 10:40 to the flotel and we ate lunch at 11:30.

We left at 14:30, we went up streams along the Piquiri river, searching for Giant Otters. We stopped at one of the sand banks, where Black Skimmers, nest in August and saw over 30 skimmers in total.

We headed back towards the Cuiaba river and at 16:45 we found a Jaguar on the river bank. We watched for 20 minutes until the cat decided that we had got enough viewing. We had our cold drinks and we watched the sunset while our boat was drifting down streams slowly with the water flow.

At 19:00, we met for dinner, and after dinner we updated our check list, and had a presentation about Capybaras.

Day 8

Wednesday 19th June

Jaguar Land Drive to Southwild Pantanal Lodge

This morning we started at 06:00 for breakfast, and at 06:30 we left the flotel in order to meet our driver at 07:30, at Neco's Fishing Camp but the driver and vehicle was delayed due to road maintenance

Marcos took the group to watch the tamest Hyacinth Macaws of the Pantanal, and we got great photos of them chatting to one another. 15 minutes later we went for a walk along the main road up to the airstrip. We saw Fuscous flycatcher, Ashy-headed Greenlet, Silver-beaked Tanager, White-lored Spinetail, Fawn-breasted Wren, Forest Elaenia, Black-fronted Nunbirds, Palm Tanager, Boat-billed Flycatcher, Bare-faced Curassow.

As the transport had still not arrived Marcos took the group back on the river for a couple of hours, to look for more Jaguars, and more Giant Otters, the latter we did see eating fish down to eight meters, far from our boat. We also saw a single mail Black-howler Monkey enjoying the river view, which we photographed.

We had lunch back at the Flotel, and at 13:30 we headed back to meet our driver who had now arrived and while organizing our bags, we photographed the Hyacinth Macaws as they were bathing in a small pool.

At 14:15 we drove to Southwild Pantanal Lodge, arriving at 17:00, where we quickly dropped our bags and walked to the Ocelot blind. At 17:50 the Ocelot came in just as the night was falling. This male Ocelot came multiple times crawling on the vines giving us plenty opportunities to photograph him. We were amazed with that sighting!

Day 9

Thursday 20th June

Southwild Pantanal

We Started at 04:30 to go on an early morning drive to look for Giant Anteaters. We drove in the dark until 06:00, during which we saw a pair of foxes down the road and Gray Brocket Deer. The mornings are usually more active, but this was colder than most mornings.

Sunrise was totally clouded but we still could see some red lights coming through which we watched with our hot coffee..

On the way back we found a female Marsh Deer eating in the wetlands, we saw Chotoy-Spintail, Masked Gnatcatcher, Red-crested Cardinal, Unicolored Blackbird, Rusty-backed Antwren, Black-bellied and White-Faced Whistling Ducks, Little Blue Heron, Savanna Hawk, Great Black Hawk, Striated Heron and Great Kiskadee. On the way Marcos picked up a trail camera that he left from the previous night monitoring wildlife while we slept.

At 09:00 we went out on a boat ride down streams to search for water birds, luckily we found Pygmy Kingfisher, Purple-throated Euphonias, Amazon Kingfisher, Green Kingfisher, Lesser Yellow-headed Vulture, Great Egret, Snowy Egret, Neotropical Cormorant, Grayish Saltator and Bare-faced Curassow.

We got out of the boat and we did a short walk in the woods where we saw, Forest -Elaenia, Olivaceous Woodcreeper, Ashy-headed Greenlet, Silver-beaked Tanager, Chestnut-vented Conebill, Plain Tyrannulet, Mato-Grosso Antbird, Crimson-crested Woodpecker and Flavescent Warbler.

We came back at 11:00 because it was getting hot, and we had spare time then to enjoy the view from the Jabiru tower.

At 15:00 we went on boat ride to look for Giant Otters, and we managed to see an Neotropical Otter, that was shy at beginning but eventually gave a good view towards the end.

We also tried our best camera settings for speed as we tossed a fish for a Black-collared Hawk which came down to catch it as fast as a lightning.

We had a Blue-throated Piping Guan, Bananaquit, a very nice Green Kingfisher, Golden-collared Macaws, Anhinga, Neotropical Cormorants , Amazon Kingfisher and a Ringed Kingfisher that also caught a fish that Marcos tossed into the river.

We came back at 17:00 at sunset time, and after our cold sundowners we went to the Ocelot blind to stalk the cat. The cat came down and gave us many great chances for photos and tonight we had two new spotlights added, making it possible to take better photos without the need of flashes.

We were back at 19:00 for dinner and after which we updated our checklist. The after dinner presentation was about the Ocelot.

Day 10

Friday 21st June

Southwild Pantanal Lodge

The group met at 06:00 for sunrise photos at the front gate and to watch Toco Toucans coming to the feeder by room three. We saw around the surroundings of the lodge, Picazuro Pigeons, Ruddy Ground Dove, Scaled Dove, White-tipped Dove , Shiny Cowbirds, Yellow-chevroned Parakeets, Turquoise-fronted Parakeet,

At 07:45 we went on a boat ride, looking for more otters. Everybody with cameras were excited to try once more with the fishing hawks, we found one with the perfect light and most people got the shot. We also got a few new birds for the list, Red-billed Scythebill, Streaked Xenops, Buff-throated Woodcreeper, Rusty-margined Flycatcher, Ringed Kingfisher, Anhinga and Amazon Kingfisher which sat on one of our boats. The group loved that.

We also had great view of a Jabiru flying at us in favourable light by one of the neighbourhood farms. We had a quick view of the Neotropical Otter again, Black Capuchin Monkeys, that we watched for about 20 minutes. We found some other birds, such as Band-tailed Antbird, Blue-crowned Trogon, Sunbittern, Cocoi Heron, Great Egrets.

We headed got back at the lodge at 10:50 where we later met for lunch.

At 15:00 we went down streams by boat to the Great Potoo trail, we hiked more 2 km total, and we did not see the Great Potoo. we saw Chestnut-vented Conebill, Masked Gnatcatcher, Helmeted Manakin, Short-crested Flycatcher.

We returned and went upstream by 16:30 to look for Sunbittern, and more otters. We did not see the Giant Otters, but we saw the Neotropical Otter. We had Golden-collared Macaws in great sunset light, Boat-billed Heron, and Black-crowned Night Heron.

We came back at 17:30 in time for a final last night Sundowner, and about 17:45 we got ready for the Tapir Show the latest activity created by Southwild.

On the way along the 1 km walk to the tapir blind, Marcos managed to lure a large tarantula out of its burrow. On the way back we lured a Tropical Screech Owl that we heard calling at the Ocelot station. We had dinner straight away, check list and a final Capybara presentation.

Day 11

Saturday 22nd June

Southwild Pantanal - Flight to Sao Paulo

The group met at 06:00 for the sunrise in the garden, and photograph the Toco Toucans at the feeder. Breakfast was at 07:00 and at 07:30 we went on 2 km walk in the Ocelot forest surroundings, to look for woodpeckers. We saw Straight-billed Woodcreeper, Sepia-capped Flycatcher, female Helmeted Manakin, Little Woodpecker, Rufous Casionis, Plain Antvireo, Bananaquit, Masked Gnatcatcher, Hooded Tanager, Short-crested Flycatcher, Narrow-billed Woodcreeper, Golden Green Woodpecker, Crimson-crested Woodpecker, Chotoy Spinetail, Vermilion Flycatcher and Rufous Fronted Thornbird.

We came back at 09:45 in order to get our bags ready for departure after lunch and we left the lodge at 12:45. On the way westopped to watch two Red-legged Siriema that were 300 m far from the road. We stopped in the city of Pocone for a comfort stop and we arrived at the airport at 17:05. We had all checked-in in 25 min because there had been no one else before us.

We arrived in Sao Paulo at 22:00, where we picked up the Matiz Shuttle bus at the parking lot arriving at the hotel at 23:15.

Day 12

Sunday 23rd June

Sao Paulo Flight to Iguacu Falls

We met for breakfast at 05:30, and at 06:45, we left the Hotel Matiz to the airport. The plane took off at 10:00, and we landed in Foz do Iguacu at 11:30.

We had lunch at the Hotel Canzi, after which we updated our check list of the previous day.

We left the hotel at 13:45 with our van to visit the Iguacu Falls on the Brazilian side. At 14:16 we got out of the van in front of Belmond Cataratas Hotel and we walked the short trail on the Brazilian side. After viewing the falls we went on a walk on a trail behind the hotel. First thing we saw were the Black Capuchin Monkeys, Green-headed Tanager, Toco Toucan, Pale-breasted Thrush, Red-rumped Cacique, Golden-crowned Warbler and Violet-capped Woodnymph.

We came back to hotel at 18:00 and at 19:30 we met for dinner.

Day 13

Monday 24th June

Foz Do Iguacu Brazil - Puerto Iguacu Argentina

This morning we met at 07:00 breakfast, and it was still dark At 07:45 we went for a short walk, down the hotel's trail. On the trail we saw Bananaquit, Violet-capped Woodnymph, Ochre-collared Piculet, Yellow-fronted Woodpecker, Black-goggled Tanager, Guira Tanager, Tropical Parula, Golden-crowned Warbler, Fawn-breasted Tanager, Pale-breasted Thrush, Scaly-headed Parrot, Sepia-capped Flycatcher, Blue Dacnis, Magpie Tanager, Red-rumped Cacique, Ochre-breasted Foliage-Gleaner, Chestnut-bellied Euphonia, Sayaca Tanager and Southern Antpipit.

We came back from the walk at 10:00 for the check out, leaving the hotel and heading towards Argentina. We stopped at Brazil border and while we waited for our passport to return with Martin, we watched a Burrowing Owl.

Crossing the Argentinian border, we got to the Three Countries mark at 11:30 and did a 10 min walk to see the monument. on the way seeing a Short-tailed Hawk.

We got at the restaurant at 12:20 and after a great meal we left towards the hummingbird garden, where we saw White-throated Hummingbird, Black Jacobin, Bananaquit, Violet-capped Woodnymph, White-throated and White-bellied Hummingbird, Swallow-tailed Hummingbird, Gilded Hummingbird, Planalto Hermit, Scaly-throated Hermit, Violaceous Euphonia and Versicolored Emerald.

We left the Garden to go to the Cantera Lodge, and after quick check in, we went out for a short walk alongside the entrance road. We saw Tropical Parula, Bananaquit, Squirrel Cuckoo, a Forest Collared Falcon and a Rufous Gnateater.

We came back to the lodge at 18:00, and on the way in we passed by the restaurant and ordered our meal to save time. We did our checklist after which we enjoyed our dinner..

Day 14

Tuesday 25th June

Visit to Waterfalls Park, Argentinean Side

This morning we had breakfast at 06:30 and headed to the park by 07:30, where due to local knowledge of our guide, we were able to access the park two hours before most of crowds.

We were birding at the parking lot, and short walk trails at the back of the restaurant. It was still cold and most birds will eventually pop out to warm up in the sun. We saw some Plush-crested Jay, Pale-breasted Thrush, Rufous Hornero, Southern Lapwing, Rufous-browed Peppershrike, Smooth-billed Any, Chopi Blackbird, Chestnut-eared Aracari, Scaly-headed Parrot, Blond-crested Woodpecker, Great Dusky Swift, Rufous-collared Sparrow, Blue Dacnis, Southern House Wren, Red-rumped Cacique, Creamy-bellied Thrush and Variable Oriole.

Walking on the trail we saw Agouti , Roadside Hawk, Turkey Vulture, Rufous-winged Antwren, Ochre-collared Piculet and Violaceous Euphonia. At 09:30 we headed back to the meeting point, we saw Blue-winged Parrotlet, White-eyed Parakeet, Eared Dove, and a Chalk-browed Mockingbird.

After a comfort and coffee break we started to walk towards the waterfall where we enjoyed the morning taking photos before meeting back for lunch at the barbecue restaurant Fortin.

After lunch the group had free time to do what they wished until 14:00.

At 14:15 we caught the train to go to the devil's throat station, where we started the walk towards the devil throat. On the way we saw large catfishes, turtles, Toco Toucan, Neotropical Cormorants, Social Flycatcher, Plush-crested Jays, Great Egret and Great Dusky Swift.

After our afternoon activities at the Devil's Throat we headed back to the hotel by 17:20 and met at 19:15 for our checklist update and dinner.

Day 15

Wednesday 26th June

Cantera lodge road 101 - Airport

Today we met at 06:15 for breakfast, and about 06:55 we drove towards the road 101 a fantastic preserved forest a few km far from the Park. We got there at 07:28, and while we were there we saw, Rufous-bellied Thrush, White-shouldered Fire-eye, Southern Caracara, Blue Dacnis, Ruby-crowned Tanager, Green-headed Tanager, Ochre-breasted Foliage Gleaner, Eared Pygmy Tyrant, Black-goggled Tanager, Guira Tanager, Fawn-breasted Tanager, Yellow Tyrannulet, Tropical Parula, Sepia-capped Flycatcher, Variable Antbird, Chestnut-vented

Conebill, Golden-crowned Warbler, White-spotted Woodpecker, Saffron-billed Sparrow, Red-crested Finch, Surucua Trogon, Red-breasted Toucan, Green-winged Saltator, Winged-barred Piprites, Streaked-capped Antwren, Rufous-winged Antwren, Olivaceous Woodcreeper, Scaly-throated Hermit and Rufous-crowned Greenlet.

At 10:00 we made our way back to Cantera Lodge, where we had one full hour to check out and meet again to update our checklist. At 11:50 we left Cantera Lodge in Argentina for our last meal together as a group. we arrived at the Rafain barbecue restaurant and at 14:35 we left the restaurant towards the airport.

We got at the airport at where the group checked- in and thus started our journey back to the UK.

Day 16

Thursday 27th June

Overnight flight back to the UK
