Day 1

Sunday 23rd May

Fine, warm and sunny with the odd late shower

Fifteen tour participants met Paul and Alan at St.Pancras International Station for the 08-57hrs Eurostar service to Lille Europe, arriving at 11.24hrs local time. We then transferred to the 12-06hrs Lille to Marseilles TGV service, arriving at Lyon Part Dieu at 15-01hrs. It was now necessary to take the shuttle bus from Lyon Part Dieu to Lyon St.Exupery Airport, where we collected our minibuses for the final leg of the journey to the Vercors region, travelling towards Grenoble, before turning up onto the Vercors Plateaux. We made our way to Sassenage and continued through Lans en Vercors and the stunning Gorges de la Bourne. Christina's sharp eyes spotted a male Alpine Ibex reclining on a dusty slope, affording us superb views of this normally secretive animal. Our destination, the Hotel Bellier in the quiet town of La Chapelle en Vercors, was soon reached. This was to be our base for the next seven nights. After settling into our rooms, it was time to meet for dinner.

Day 2

Monday 24th May

Fine, hot and sunny. 26 degrees

After breakfast we set off for our first full day in the Vercors. However, it was a bank holiday in France, and the hypermarket would close at 12-00hrs, so we decided that we would do our week's picnic shopping first. Heading off towards St. Jean en Royans, we made a stop at the viewpoint at the Col de la Machine, overlooking the magnificent Combe Laval. Here we saw Crag Martin, House Martin and Black Redstart.

Meanwhile the botanists had found *Botrychium lunaria* (Moonwort), *Pritzelego alpina* (Hutchensia), *Lamium garganicum* (Large Red Deadnettle) and *Kernera saxatile* (Kernera). We passed through the spectacular Route de Combe Laval on our way to the shops, and as we went we saw Common Buzzard and Honey Buzzard, circling. On our way back, we stopped on a viewpoint, where we explored the verges. Little Blue, Black-veined White and Scarce Swallowtail butterflies were seen as well as Black Kite and singing Chiffchaff. Plants included *Orchis purpurea* (Lady Orchid), *Ophrys insectifera* (Fly Orchid), *Polygala alpina* (Alpine Milkwork), *Acer opalus* (Italian Maple) and *Lonicera xylosteum* (Fly Honeysuckle). Near the Commune de Bouvante, we stopped at a roadside picnic table set in woodland, for lunch, during which we added *Paris quadrifolia* (Herb Paris), *Polystichum aculeatum* (Hard Shield Fern) and *Isopyrum thalictroides* (Isopyrum). The impressive Tau Emperor moth patrolled close-by. Robin, Chaffinch and Greenfinch were also heard.

Moving on, we made our way to the Font d'Urle, an area of open limestone crags and meadows used for skiing in winter. We parked the vehicles and set off for a walk. We started with a recent, now melted, snow patch which had *Crocus albiflorus* (White Crocus), *Erythronium dens-canis* (Dog-tooth Violet) and *Dactylorhiza sambucina* (Elder-flowered Orchid) around it. Above us, our attention was taken by a number of Yellow-billed Chough patrolling the ridges. As we progressed, we added *Ranunculus pyrenaeus* (Pyrenean Buttercup), *Narcissus pseudonarcissus* (Wild Daffodil), *Scilla bifolia* (Alpine Squill) and *Gagea fistulosa* (a Yellow Star of Bethlehem). Wheatear, Water Pipit and Skylark were also present, and a single Ring Ouzel was also glimpsed. As we moved towards the viewpoint, we saw Alpine Marmot, and we found the emerging rosettes of *Androsace villosa* (Rock Jasmine) and *Gentiana verna* (Spring Gentian) as we were returning to the vehicles.

Leaving the Font d'Urle, we made our way towards Vassieux en Vercors. Here we made a stop at the cemetery, where the victims of the Nazi massacre at the village during the Second World War are buried, before driving back to the hotel. While we were there we saw Red-backed Shrike, in the small quarry. *Cerastium arvense* (Field Mouse-ear) and *Prunus mahaleb* (St. Lucie's Cherry) were also recorded.

Day 3

Tuesday 25th May

Fine, warm and sunny, but Windy later. 24 degrees

Six members of the group joined Alan for a very early start to go to try and find Black Grouse, making our way up onto the Hauts Plateaux, and arriving in the La Coche car park at 05-00hrs. There was then a walk up to the lek site, which took about an hour. As we walked we saw Song Thrush and Crossbills and heard Robin, Short-toed Treecreeper, Mistle Thrush, Ring Ouzel and Firecrest. As we approached the site where these wonderful birds perform we spotted a group of three male Black Grouse in the distance on the path. We all had a look at them through Alan's telescope before trying to move closer. Unfortunately the expected happened and when the birds sensed us they took to the wing and disappeared into the trees. The views were brief but worth the early rise. As the morning progressed and the sun came up, we were treated to fine displays by Tree Pipits, further good views of Crossbills, several more Ring Ouzel and a single Citril Finch.

After a good breakfast the rest of the group, with Paul, drove south, making a first stop just south of St Agnan en Vercors to explore the verges and adjacent meadows. In a wet flush we found *Dactylorhiza alpestris* (Broad-leaved Marsh Orchid), *Polygonum bistorta* (Bistort) and *Coeloglossum viride* (Frog Orchid).

Moving on, we made our way up on to the Hauts Plateaux, stopping briefly at a viewpoint, where Paul pointed out the differences between *Cardamine heptaphylla* (Seven-leaflet Bittercress) and *Cardamine pentaphyllos* (Five-leaflet Bittercress). After parking at the La Coche car park, we made our way along the same roads and tracks through the forest that the birders had taken earlier, towards the open area higher up. Good numbers of *Orchis ovalis* (an Early Purple Orchid) were seen, as well as *Daphne cneorum* (Garland Flower), *Tulipa sylvestris* subsp. *sylvestris* (Wild Tulip) and *Pulsatilla alpina* (Alpine Pasque Flower). We then began exploring the mainly coniferous woodland and found that *Abies alba* (Silver Fir) and *Picea abies* (Norway Spruce) predominated; we spotted Tree Pipits at this point. Before long we met up with the birders descending after their wonderful morning, and exchanged records. As they made their way on down for their picnic, the botanists continued on up, soon emerging from the rocky forest onto the Plateau, finding *Pinus uncinata* (Mountain Pine), *Arctostaphylos uva-ursi* (Bearberry) and *Vaccinium uliginosum* (Bog Whortleberry). Both groups did well for insects, with Small Dark Yellow-underwing, Tau Emperor and Speckled Yellow Moths, and Small Tortoiseshell, Duke of Burgundy Fritillary and Little Blue Butterflies. From here we made our way back down to La Coche for our lunch.

In the afternoon, both groups travelled, independently, along the east side of the Plateau, returning early to the hotel for some rest. On the way a stop was made by the botanists, after the descent, adding *Orchis anthropophora* (Man Orchid) and *Ophrys insectifera* (Fly Orchid), both in good numbers.

Day 4

Wednesday 26th May

Showers early on, becoming dry warm and sunny. 24 degrees

It was time for a change of direction today, and we began by driving south from La Chapelle en Vercors. Our first stop was at the head of the spectacular Col de Rousset – there are truly magnificent views from here. A Chamois was spotted on a distant scree slope and *Anthyllus montana* (Mountain Kidney Vetch) and *Gentiana clusii* (Clues's Gentian) were also seen. Moving on down the valley, we made a second stop to watch Griffon Vultures leaving their roosts – counting about 10 to 15 birds in total. We also located some sitting birds in the telescope too, so everyone managed to see them. Above the Vultures, we spotted a couple of high flying Alpine Swifts. On the verge there were three or four large plants of *Ononis speciosus* (Shrubby Restarrow) and a few stems of *Aphallanthes monspeliensis* (Blue Aphallanthes) and *Cotinus coggygria* (Smoke Bush).

At the bottom of the valley we turned east through the town of Die and on through Pont de Quart and Chatillon en Diois, and on up through Menee and Les Nonniaires, towards the Col de Menee. Below the Col, we stopped by some lovely meadows and mixed open woodland. The objective here was to see *Cypripedium calceolus* (Lady's Slipper Orchid). Unfortunately, due to the late season, these stunning plants were still only in bud. Nevertheless, we did see *Cephalanthera longifolia* (Sword-leaved Helleborine) and *Gentiana angustifolia* (Narrow-leaved Gentian). In the meadow opposite we found Latticed Heath and Burnet Companion Moths and Field Cricket. Raven and Coal Tit were added to the bird list.

We now began to retrace our steps, but only as far as the spectacular Vallee de Combau, making our way to a ford in a small mountain stream where we set up lunch under *Pinus uncinata* (Mountain Pine). There was a fine stand of *Pinguicula grandiflora* (Greater Butterwort), and we also saw Coal Tit, Northern Wall Brown and Little Blue Butterflies.

After lunch we stopped to admire a stand of *Orchis spitzelii* (Spitzel's Orchid), as well as *Meum athamanticum* (Spignal), *Arctostaphylos uva-ursi* (Bearberry) and *Gentiana angustifolia* (Narrow-leaved Gentian).

We moved on to the village of Menee, where we turned north and up into the Cirque d'Archiane, a splendid amphitheatre of towering rock faces and cliffs. We then stopped to have some well-earned refreshments in the warm afternoon sun. *Antirrhinum latifolium* (Broad-leaved Snapdragon) and *Turritis glabra* (Tower Mustard) were recorded as well as Berger's Clouded Yellow, Wood White and Adonis Blue Butterflies.

Retracing our steps back up towards the Col de Rousset, we stopped once again at the Griffon Vulture roost, and were rewarded with c.53 birds in the air, together with two Black Vultures. It was now time to continue our journey back to La Chapelle en Vercors for dinner.

Day 5

Thursday 27th May

Fine, warm and sunny with a breeze. 18 degrees

Today we made our way up to the northern end of the Vercors Plateaux. Our main objective for the day was to try and find a Wallcreeper, but we found interesting things en route, too. Leaving La Chapelle, a solitary Common Buzzard was spotted on a roadside overhead line. We drove north to the village of St Martin en Vercors. Then we turned right, up towards Herbouilly. Our first scheduled stop was to see *Orchis pallens* (Pale Orchid). This was a plus point of the late season, as the plants were in particularly good order.

We continued driving on the back road to Villard de Lans and Lans en Vercors and on to the tiny hamlet of Les Merciers, where we parked in a wide quarry-like lay-by. When we had topped up with water and applied suntan cream, the birders set off with Alan for a tall crag, an old site where Wallcreepers had been seen in past years. Settling down on the top of a viewing point to wait and watch for signs of movement, we made ourselves comfortable. Meanwhile, Paul took the botanists off to explore. They found *Saxifraga paniculata* (Live-long Saxifrage), *Ranunculus aconitifolius* (Aconite-leaved Buttercup), *Anthyllis montana* (Mountain Kidney Vetch) and *Saxifraga rotundifolia* (Round-leaved Saxifrage). At the viewpoint the birders enjoyed seeing Crag Martin, Raven, Alpine Swift, Linnet and a close Bonelli's Warbler but, sadly, no Wallcreepers. By now it was time for lunch, so we returned to the vehicles and made the short journey down to the Gorges de Furon for our streamside picnic.

Our next stop was to explore some wet meadows at Les Bruyeres. Here we found Marsh Warblers, Mallard and Yellowhammer. Plants included *Tephroseris helenitis* (Swiss Ragwort) and *Dactylorhiza majalis* (Broad-leaved Marsh Orchid). A small pond produced Pool Frog and Common Blue Damselfly.

The afternoon ended with a visit to the hamlet of Traffet, where we explored the mixed woodland. *Convallaria majalis* (Lily of the Valley), *Neottia nidus-avis* (Bird's-nest Orchid) and a few spikes of *Corallorrhiza trifida* (Coralroot Orchid), which was again, just emerging, were added. Coal Tit and Crested Tit were also added to the bird list.

Retracing our route from the morning, we made a short stop at the derelict village of Valchevriere, and a memorial to the Resistance. From here we made our way back to La Chapelle en Vercors.

Day 6**Friday 28th May**

Fine, warm and sunny with some cloud. 24 degrees

Today we should have travelled down towards the Col de la Machine then on over the Col de la Bataille. However, there had been a rock-fall, and this road was blocked. So we took an alternative route via the tunnel at Les Baraques and Ste-Eulalie en Royans, where we turned south through St. Jean en Royans and on down towards the town of Leoncal, where we turned left and headed south to the Col de Bacchus. Here we stopped to explore some lane verges and a broad road verge, finding *Orbis morio* (Green-winged Orchid), *Orbis ustulata* (Burnt Orchid), *Orbis tridentata* (Toothed Orchid) and *Globularia punctata* (Common Globularia), among many other species. The birders added Blackcap and Stonechat. Mother Shipton and Fox Moth were seen and Eastern Short-tailed Blue, which was right on the margin of its distribution.

We took our lunch just below the cliff to the north a Plan de Baix, in a small picnic area with a car park. While lunch was being prepared some group members took the opportunity to photograph the surrounding flower-filled meadows and verges. During the meal Black Kite, Honey Buzzard and Kestrel were reported but the star sighting was of a Lammergeier which drifted by using the updraft from the cragside. Karen also found a resting Patton's Tiger Moth.

From here we carried on south through Pain de Baix and Beaufort sur Gervanne, where we turned west to an area of open scrubby land with marginal woodland at Gigors. Here we added *Limodorum abortivum* (Violet Bird's-nest Orchid), *Helianthemum oelandicum* subsp. *canum* (Hoary Rockrose), *Ophrys drummanni* (Drome Orchid), and *Quercus pubescens* (Downy Oak) to the plant list, and we added several more species to the insect list as well. Greenfinch, Blackcap and Cirl Bunting were also noted. From here we retraced our steps the short distance towards Beaufort, where we explored some arable margins. Five Rock Sparrows, Linnet, Honey Buzzard, Turtle Dove and Skylark were all seen. The botanists found *Trifolium incarnatum* (Crimson Clover), *Onobrychis arenaria* (a Sainfoin) and *Gladiolus italicus* (Field Gladiolus), and we also found a Wart-Biter Cricket. It was now time to head north. We stopped to look at *Platanthera bifolia* (Lesser Butterfly Orchid) on a road verge, before retracing our steps back, via St.Jean, to La Chapelle for dinner.

Day 7**Saturday 29th May**

Fine, warm and sunny. 26 degrees

We began today by driving north to Les Baraques en Vercors, before turning west, through the new road tunnel and the Petits Goulets to Ste. Eulalie en Royans. On the way, we stopped in a layby to admire a splendid stand of *Anthericum liliago* (St. Bernard's Lily). A particularly ardent Song Thrush was singing in adjacent trees. At Ste. Eulalie, we turned north through Pont en Royans, before ascending to the route de Presles to a magnificent limestone cliff-face overlooking the valley of the River Bourne. As we drove up to the high point, we passed several clumps of *Dianthus sylvestris* (Wood Pink) and a stand of emerging *Ornithogalum pyrenaicum* (Bath Asparagus). At the cliffs we saw a spectacular display by Alpine Swift, House Martins and Crag Martins, which were wheeling around our heads. We also saw a Short-toed Eagle and Honey Buzzard. The plants here included *Anacamptis pyramidalis* (Pyramidal Orchid), *Orchis anthropophora* (Man Orchid), *Lactuca perennis* (Mountain Lettuce), *Cytisus sessilifolius* (Sessile Broom) and *Anthericum liliago* (St. Bernard's Lily). We also added Wall Brown butterfly and Black-veined Moth to the insect list, and Common Wall Lizard and Green Lizard to the reptile list.

After spending some time here, we moved north into the forest, asnd stopped near the Col de Mont Noir for our picnic. Blackcap, Firecrest, Song Thrush and Chaffinch were all recorded. After lunch we explored a small grassy clearing, adding Small Copper, Pearl Bordered Fritillary and Orange Tip butterflies and Mother Shipton and Burnet Companion moths. *Saxifraga rotundifolia* (Round-leaved Saxifrage), *Paris quadrifolia* (Herb Paris) and *Lilium martagon* (*Martagon Lily*) were recorded also.

After this we returned down the Route de Presles and into Pont en Royans where we saw several more Dippers and Mallard, before enjoying some splendid ice-creams. It was now time to return to La Chapelle en Vercors. One final stop on a verge near the hamlet of Tourtre produced *Ophrys scolopax* (Woodcock Orchid), *Ophrys fuciflora* (Late Spider Orchid), *Asarum europaea* (Asarabacca) and *Astragalus glycyphyllos* (Wild Liquorice). From here, we made our way back to La Chapelle en Vercors for dinner.

Day 8

Sunday 30th May

Weather: cloudy with intermittent light rain. 19 degrees

After an early breakfast, we left La Chapelle en Vercors, we bid farewell to Mme Bellier, her family and staff. We retraced the route north to the airport at Lyon. We reached Lyon Exupery airport at 08-10hrs, and transferred to the Shuttle-bus back to Lyon Part Dieu, in time to catch the 10-25hrs TGV to Lille and onward Eurostar connections to London.

Butterflies (C = Caterpillar N = Nest)

	Common Name	Scientific Name	MAY							
			23	24	25	26	27	28	29	30
1		Hesperiidae								
2	Dingy Skipper	<i>Erynnis tages</i>						✓		
3	Red-underwing Skipper	<i>Spialia sertorius</i>					✓			
4	Grizzled Skipper	<i>Pyrgus malvae</i>			✓			✓	✓	
5	Chequered Skipper	<i>Carterocephalus palaemon</i>				✓		✓		
6		Papilioiidae								
7	Scarce Swallowtail	<i>Iphiclides podalirius</i>	✓	✓	✓		✓	✓		
8	Swallowtail	<i>Papilio machaon</i>		✓						
9		Pieridae								
10	Wood White	<i>Leptidea sinapis</i>			✓	✓			✓	
11	Eastern Wood White	<i>Leptidea duponcheli</i>	✓	✓						
12	Black-veined White	<i>Aporia crataegi</i>	✓					✓		
13	Small White	<i>Artogeia rapae</i>	✓	✓	✓					
14	Orange Tip	<i>Anthocharis cardamines</i>	✓	✓	✓	✓	✓	✓	✓	
15	Berger's Clouded Yellow	<i>Colias alfacariensis</i>				✓		✓		
16	Clouded Yellow	<i>Colias crocea</i>							✓	
17	Cleopatra	<i>Gonepteryx cleopatra</i>					✓			
18	Brimstone	<i>Gonepteryx rhamni</i>	✓	✓	✓				✓	
19		Lycaenidae								
20	Duke of Burgundy Fritillary	<i>Hamearis lucina</i>			✓			✓		
21	Green Hairstreak	<i>Callophrys rubi</i>			✓	✓		✓		
22	Small Copper	<i>Lycaena phlaeas</i>							✓	
23	Eastern Short-tailed Blue	<i>Everes decoloratus</i>							✓	
24	Little Blue	<i>Cupido minimus</i>		✓	✓	✓		✓	✓	
25	Green-underside Blue	<i>Glaucopsyche alexis</i>				✓				

	Common Name	Scientific Name	MAY							
			23	24	25	26	27	28	29	30
26	Adonis Blue	<i>Lysandra bellargus</i>				✓		✓		
27	Brown Argus	<i>Aricia agrestis</i>						✓		
28		Nymphalidae								
29	Southern White Admiral	<i>Limenitis reducta</i>						✓		
30	Small Tortoiseshell	<i>Aglais urticae</i>		✓	✓	C				
31	Peacock Butterfly	<i>Inachis io</i>		✓	✓					
32	Red Admiral	<i>Vanessa atalanta</i>		✓	✓	✓				
33	Painted Lady	<i>Vanessa cardui</i>		✓	✓			✓		
34	Spotted Fritillary	<i>Miltaea didyma</i>						✓		
35	Pearl Bordered Fritillary	<i>Boloria euphrosyne</i>						✓		
36		Satyridae								
37	Speckled Wood	<i>Pararge aegeria</i>					✓			
38	Wall Brown	<i>Lasiommata megera</i>		✓					✓	
39	Northern Wall Brown	<i>Lasiommata petropolitana</i>			✓	✓				
40	Small Heath	<i>Coenonympha pamphilus</i>		✓	✓	✓	✓	✓	✓	
41	Meadow Brown	<i>Maniola jurtina</i>						✓		

Moths (C = Caterpillar N = Nest)

	Common Name	Scientific Name	MAY							
			23	24	25	26	27	28	29	30
1	White Plume Moth	<i>Pterophorus pentadactylus</i>						✓		
2	Fox Moth	<i>Macrothylacia rubi</i>						✓		
3	Tau Emperor	<i>Aglia tau</i>		✓	✓	✓			✓	
4	Cream Wave	<i>Scopula floslactata</i>						✓		
5	Grass Rivulet	<i>Perizoma albulata</i>								
6	Clouded Border	<i>Lomaspilis marginata</i>						✓		
7	Latticed Heath	<i>Semiothisa clathrata</i>					✓	✓		
8	Speckled Yellow	<i>Pseudopanthera macularia</i>		✓	✓	✓	✓	✓	✓	
9	Common Heath	<i>Ematurga atomaria</i>		✓						
10	Black-veined	<i>Siona lineata</i>						✓	✓	
11	Hummingbird Hawkmoth	<i>Macroglossum stellatarum</i>		✓		✓				
12	Pine Processionary Moth	<i>Thaumetopoea pityocampa</i>				N	N	N		
13	Brown-tail	<i>Euproctis chrysorrhoea</i>							N	
14	Cream-spot Tiger	<i>Arctia villica</i>							✓	
15	Patton's Tiger	<i>Hyphoraia testudinaria</i>							✓	
16	Small Dark Yellow Underwing	<i>Anarta cordigera</i>			✓					
17	Mullein	<i>Shargacucullia verbasci</i>							C	
18	Angle Shades	<i>Phlogophora meticulosa</i>					✓			
19	Small Dotted Buff	<i>Photedes minima</i>							✓	
20	Silver Y	<i>Autographa gamma</i>						✓		
21	Mother Shipton	<i>Callistege mi</i>							✓	
22	Burnet Companion	<i>Euclidia glyphica</i>				✓	✓	✓		✓
23	4 Spotted Moth	<i>Tyta luctuosa</i>					✓			

Other Invertebrates

	Common Name	Scientific Name	MAY							
			23	24	25	26	27	28	29	30
1	Mayfly	<i>Ephemeroptera sp.</i>				✓				
2	Common Blue Damselfly	<i>Enallagma cyathigerum</i>						✓		

	Common Name	Scientific Name	MAY							
			23	24	25	26	27	28	29	30
3	Broad-bodied Chaser	<i>Libellula depressa</i>						✓		
4	Speckled Bush-cricket	<i>Leptophyes punctatissima</i>						✓		
5	Cricket sp.	<i>Tettigoniidae sp.</i>		✓						
6	Field Cricket	<i>Gryllus campestris</i>				✓	H	✓	H	
7	Stonefly	<i>Dinocras cephalotes</i>					✓			
8	Ear-wig	<i>Anechura bipunctata</i>			✓					
9	Shieldbug	<i>Graphosoma italicum</i>						✓		
10	Shieldbug	<i>Eurydema dominulus</i>				✓				
11	Forest Bug	<i>Pentatomia rufipes</i>				✓		✓	✓	
12	Green Shieldbug	<i>Palomena prasina</i>			✓	✓				
13	Shieldbug	<i>Syromastes rhombeus</i>						✓	✓	
14	Gendarme Ground Bug	<i>Lygaeus equestris</i>				✓				
15	Fire Bug	<i>Camptopus lateralis</i>		✓		✓	✓	✓	✓	
16	Common Pond Skater	<i>Gerris lacustris</i>					✓			
17	Common Backswimmer	<i>Notonecta glauca</i>					✓			
18	Froghopper (Red & Black)	<i>Cercopis vulnerata</i>						✓	✓	
19	Ascalaphid	<i>Libelloides coccajus</i>				✓		✓		
20	Caddis Fly	<i>Trichoptera sp.</i>			✓	✓				
21	Cranefly	<i>Tipulidae sp</i>		✓	✓	✓	✓			
22	Bee-fly	<i>Bombylius major</i>			✓			✓		
23	Bumblebee Hoverfly	<i>Volucella bombylans</i>					✓			
24	Ichneumon Fly	<i>Ichneumon suspiciosus</i>							✓	
25	Wood Ant	<i>Formica rufa</i>		✓	✓	✓	✓	✓	✓	
26	Paper Wasp	<i>Polistes gallicus</i>				✓	✓			
27	Carpenter Bee	<i>Xylocopa violacea</i>		✓	✓	✓		✓	✓	
28	Honey Bee	<i>Apis mellifera</i>			✓	✓			✓	
29	Buff-tailed Bumblebee	<i>Bombus terrestris</i>			✓	✓			✓	
30	Common Carder Bee	<i>Bombus pascuorum</i>							✓	
31	Red-tailed Bumblebee	<i>Bombus lapidarius</i>				✓				
32	Cock Chafer	<i>Melolontha melolontha</i>	✓	✓	✓				✓	
33	Garden Chafer	<i>Phyllopertha horticola</i>							✓	
34	Chafer	<i>Oxythyrea funesta</i>							✓	
35	Rose Chafer	<i>Cetonia aurata</i>				✓		✓		
36	Click Beetle	<i>Ampedus cinnabarinus</i>								✓
37	Soldier Beetle	<i>Cantharis rustica</i>		✓		✓	✓	✓	✓	
38	Seven-spot Ladybird	<i>Coccinella 7-punctata</i>		✓				✓	✓	
39	Lily Beetle	<i>Lilioceris lilii</i>							✓	
40	Leaf Beetle	<i>Cryptocaphalus bipunctata</i>							✓	
41	Bloody-nosed Beetle	<i>Timarcha tenebricosa</i>							✓	
42	Leaf Beetle	<i>Phyllodecta vitellinae</i>				✓				
43	Weevil	<i>Liparus glabrirostris</i>							✓	
44	Green Spider	<i>Micrommata virescens</i>								
45	Crab Spider	<i>Misumena vatia</i>						✓	✓	
46	Wolf Spider	<i>Lycosidae sp.</i>			✓				✓	

Amphibians & Reptiles

	Common Name	Scientific Name	MAY							
			23	24	25	26	27	28	29	30
1	Green Lizard	<i>Lacerta viride</i>							✓	
2	Common Lizard	<i>Lacerta vivipara</i>		✓	✓	✓		✓		

	Common Name	Scientific Name	MAY							
			23	24	25	26	27	28	29	30
3	Common Wall Lizard	<i>Podarcis muralis</i>				✓				✓
4	Aspic Viper	<i>Vipera aspis</i>				✓				

Mammals

	Common Name	Scientific Name	MAY							
			23	24	25	26	27	28	29	30
1	Common Pipistrelle Bat	<i>Pipistrellus pipistrellus</i>			✓	✓			✓	
2	Daubenton's Bat	<i>Myotis daubentonii</i>						✓		
3	Roe Deer	<i>Mustela nivalis</i>		✓						
4	Red Deer	<i>Cervus elaphus</i>				H				
5	Fallow Deer	<i>Dama dama</i>								✓
6	Alpine Ibex	<i>Capra ibex</i>	✓							
7	Chamois	<i>Rupicapra rupicapra</i>					✓			
8	Red Squirrel	<i>Sciurus vulgaris</i>			✓					
9	Alpine Marmot	<i>Marmotta marmotta</i>			✓					
10	Snow Vole	<i>Microtis nivalis</i>				✓				
11	Brown Hare	<i>Lepus capensis</i>							✓	

Molluscs etc

	Common Name	Scientific Name	MAY							
			23	24	25	26	27	28	29	30
1	Dusky Slug	<i>Arion fuscus/subfuscus</i>		✓						
2	Large Black Slug	<i>Arion ater</i>						✓		
3	Great Grey Slug	<i>Limax maximus</i>						✓		
4	Roman Snail	<i>Helix pomatia</i>		✓			✓			

Other Groups

	Common Name	Scientific Name	MAY							
			23	24	25	26	27	28	29	30
1	Brown Trout	<i>Salmo trutta</i>					✓
