Day 1

Saturday 21st February

London – Delhi - Sultanpur

It was a very lovely, sunny day today, and the temperature was about 25°C in Delhi. The group came by BA 257, and the flight was on time, and we got everybody around 10.30. We drove from the airport to our hotel Holiday Inn and, on the way, saw Red-wattled Lapwing and Bank Myna.

We checked in, and told the group about the afternoon programme. The group met up at 1pm, and four of the guests Toni, Sue, Steve and Pat wanted to go for the Delhi sightseeing, while the others wanted to go for Sultanpur Bird Sanctuary, to see birds. I went with birders to the sanctuary, where we saw large numbers of waterbirds, including Red-crested & Common Pochard, Garganey, Eurasian Wigeon, Northern Pintail, Common Teal, Greylag Goose and Common Moorhen. Other species included Great Egret, Intermediate Egret, Purple and Grey Heron, Purple Swamphen, Black-headed Ibis, Glossy Ibis, White-tailed Lapwing, and many more.

We got back from the sanctuary around 5.30pm and, after dinner and a briefing about the next day's programme, we said good night.

Day 2

Sunday 22nd February

Delhi to Nagpur – Kanha

We met this morning at 3.45am, as it was an early flight to Nagpur. After a hitch with a mislaid boarding pass, we all boarded the flight.

We reached Nagpur, and it was a nice temperature of 21°C. We all got our bags, and took three Innova taxis for the drive to Kanha. On the way, we bought some fruit for the journey, in case anyone felt hungry before we reached Kanha, and stopped for a comfort break at the half way point. As we drove, we saw Common Langur monkey, Rhesus Macaque, Indian Roller, Black-winged Kite, Long-tailed Shrike, and Common and Bank Myna.

We reached Kanha National Park around 1.45pm, going straight to our Earth Lodge. We checked in and then had lunch, and then went on the first safari drive through the park. We had good drive, and saw Spotted and Sambar Deer, together with a variety of common bird species, and it was nice and cool in the park. Came back

around 6.30pm, and later met for the checklist, followed by dinner and a briefing about the next day's programme. Then it was lights off, after a long day.

Day 3

Monday 23rd February

Kanha

Today we got up early, and met for the tea and coffee in the lodge, where our jeeps were waiting for us. We entered the park, and had good drive. We heard some alarm calls but despite waiting a long time, no Tiger came out. However, we saw some nice birds, and had breakfast in the park before we came back.

We had lunch at 1pm, and left for the park again at 2.15pm. We saw Sambar & Swamp Deer, Rhesus Macaque, Common Langur, Spotted Deer and other common animals. We came back from park around 6.30pm, and met for checklist and dinner. After the plan for the next day, we went to bed.

Day 4

Tuesday 24th February

Kanha

We met at same time in the morning, and everybody was happy as we all had enjoyed good sleep. After tea and coffee, we went again to the park, very hopeful of seeing a Tiger. As usual, the same thing happened as before, as we tried to follow the alarm calls. However, although we felt very close to the alarm calls, no Tiger appeared. So, after all this excitement, we went to the Kanha camp for breakfast and, after that, did some birding before coming back from the park.

We met for lunch at 1pm, and then again left for park at 2.15, to be quick in the line for the park. In the park, we saw Indian Scops Owl, Crested Serpent Eagle amongst other birds, and tried for Tiger again, but we didn't see him. We came back, and had tea and coffee and then went to room for showers etc. We then met for the checklist and dinner, followed by bed, for our last night in Kanha.

Day 5

Wednesday 25th February

Kanha – Bandhavgarh

We met again at the same time, for our last drive to the park. We went in and did a short drive through the park, as we had to leave for Bandhavgarh the same day. We saw again the familiar species, then came back to the hotel. After settling our bills, we left from the hotel with a packed lunch.

It was a lovely drive, with good sightseeing, and we saw Indian Roller, Black-winged Kite and Woolly-necked Stork. We stopped on the way at one of the lake and saw Bronze-winged and Pheasant-tailed Jacana, Great Cormorant, Green Bee-eater. We reached Bandhavgarh in the evening, around 6pm, and checked in. We met for dinner and the checklist and, after a introduction about the place and park, went to bed.

Day 6

Thursday 26th February

Bandhavgarh

We met again for the park and went to Tala zone. It was a nice morning and wasn't cold at all, because of the cloudy weather. We had a good drive through the beautiful Raj Behra meadows of Bandhavgarh, and saw the lovely Spotted Deer in the misty light. It was a lovely drive through the hills of Bandhavgarh, and we saw Indian Gaur, Sambar deer, Scarlet Minivet, Woolly-necked and Lesser Adjutant Storks and other common birds. However, there was still no sight of a Tiger.

We came back from park and met for lunch at 1pm, and then started again for the park at 2.30pm. We returned to the Tala zone, and then did a good drive again, with plenty of common species and some alarm calls, before we came back. We met for the checklist around 7pm, then followed by dinner, and then lights off.

Day 7

Friday 27th February

Bandhavgarh

We met again to return to the park and, today, the weather was very cloudy with a little rain as well, but by the time we reached the park it had stopped. We went in and, this morning, had some very good alarm calls. Someone reported a Tiger with cubs in one of the areas, so we went to that place, and spent all the time there waiting and waiting, but nothing happened. While we were waiting, we saw Indian, White-bellied and Red headed Vultures. Sadly, we came back from park without any Tiger sightings. Everybody was getting little depressed about not seeing any Tigers, but they had hope for the next three drives.

We came back and had breakfast and free time, and then met for a little lunch again before went to the park. This evening, we went to the Magdi zone, to the place where a female with three eight-month-old cubs had been sighted every day but, although we waited there, nothing happened. We went to a lake which was close to the area, and saw Red-naped Ibis, Little Grebe and Crested Serpent Eagle. We had a little time before we had to go to the park gate, so we decided to check the other water hole, where a male and female Tiger had also been sighted. Those in the first vehicle, finally had glimpse of the male Tiger, crossing the road! Unfortunately, the other group members, including me, missed it by about 20 seconds, as the Tiger had gone into the bamboo forest. Our first sighting!

We came back from park and met for checklist and, as it was Christine's birthday, we organised a surprise cake for her. Sadly, she hadn't seen the Tiger today, otherwise it would have been the best gift she could have had. But we still had another two more drives in the park. After celebrating her birthday, we went to bed.

Day 8

Saturday 28th February

Bandhavgarh – Overnight train – Agra

Today we woke up at the same time, but left for the park 10 minutes earlier, in order to maximise our chances of good sightings. We went into the Magdi zone again, and soon found some very fresh Tiger footprints, which we followed, but didn't find the animal. This morning, I was with the first vehicle, and we went to the place where

the Tigers had been seen. As it was still early, the other vehicle joined us for a while. However, the Tigers were inside the bamboo forest, as they were feeding on a kill. We stayed there, but the other vehicle had to follow a different route. The Elephant mahouts said the Tigers might come out, as the kill was almost finished. After some time, the female came on to the road, and crossed and went into the grass. Then the cubs were also trying to come out, but they didn't, as there were so many cars. After some time, the female reappeared, crossed the road again, and returned to the cubs. We were delighted to see this wonderful animal. We eventually met with up the rest of the group, who had been lucky to see two Sloth Bears, but, unfortunately, still no Tigers for them. We came back from the park and had breakfast, and then again met for lunch and then for the last drive.

This time, I was with the other group, and we went to the point again, where we left Tigers this morning. As we reached there, we saw the cubs and mother sleeping under the shade of bamboo forest. Finally, the whole group saw Tigers! After some time, the rest of the party came, and we all saw the Tigers together and got some photos. The whole group was happy that, on our last drive to the park, we all saw these majestic Tigers.

We came back and did packing and sorted our bills out, and then left from the hotel to catch our overnight train to Agra with a packed dinner.

Day 9

Sunday 1st March

Agra

After a long night on the train, we arrived around noon, and then went to the hotel Trident. It was about 15 minutes drive from the train station. We were all tired, so we decided to go to the Taj Mahal in the evening. As we went in, it started raining, and we had to shelter in one of the buildings from the rain. It eased, and then we did the sightseeing in the rain, which made it look totally different. On the back of the Taj Mahal, by the Yamuna River, we saw Rosy Pelican, Spoonbill, Great Cormorant, Ruddy Shelduck, Black Kite, Greenshank and Redshank, Little Ringed Plover and other waders. We came back from the Taj, and then they all went to their rooms.

We met for drinks and the checklist and then, after letting them know about the next day's plan, we said goodnight.

Day 10

Monday 2nd March

Agra

This morning, we got up early and went to see the Baby Taj and, after that, we went to Agra Fort. It started raining very heavily, so we waited a while in the coach, but then decided to get wet. We borrowed some umbrellas from the people outside the fort. The entry gate of the fort was full of water, so we had to wait there as well, until the water drained out. We managed to get into the fort and enjoyed our sightseeing of Agra fort. Afterwards, we went to a local restaurant for lunch, and then went on to the abandoned city of Fatehpur Sikri.

Today was the day for Patricia and Steve to say good bye to others, as they were going on for extension of Bharatpur and Ranthambhore. After seeing them off, we came back to Agra and went to the local restaurant for dinner and drinks, and did the checklist. Later on we got to the train station to catch our train to Delhi. We

reached Delhi around 11.30pm, and then drove to their hotel Holiday Inn and, after letting them know about the programme for their flights back home and settling their wake-up calls for morning, I said good bye to them.

We all agreed that it had been an amazing time, experiencing Wild India in style, especially the Tigers!
