## Highlights

We suffered from heavy rain and gloomy conditions during the tour but this didn't stop a determined group from following their leaders and spotting the 33 endemic birds, along with a rare sighting of Citrine Wagtail, and the discovery of a new roosting site for Serendib Scops Owl. The elusive Sri Lanka Whistling Thrush was spotted twice, while Sri Lanka Myna came to greet us on our last day at Singharaja. A very rare sighting of a Pygmy Lizard and a Round-snout Pygmy Frog in Horton Plains was a bonus for this tour.

### Day 1

**Saturday 7th November**

Group members started their Sri Lanka endemic birding tour with an overnight flight from the UK to Sri Lanka.

### Day 2

**Sunday 8th November**

The group arrived at Colombo Airport at 12.40pm, and by 1.35pm we were on our way to Kithulgala. We stopped en route at a nearby field where we encountered lots of birds including Indian Pond Heron, Wood Sandpiper, Lesser Whistling-duck, Intermediate Egret, White-throated Kingfisher, Barn Swallow, Black-headed Ibis, Red-wattled Lapwing, Common Myna, White-bellied Drongo, Grey Hornbill, Sri Lanka Swallow, Sri Lanka Hanging Parrot, Legge's Flowerpecker, Pale-billed Flowerpecker, Asian Palm Swift, Indian Swiftlet, Red-vented Bulbul, Jungle Crow and Asian Brown Flycatcher. We also encountered a Torque Macaque.

We reached Kithulgala at 4.40pm, and were greeted with a hot cup of tea. After tea we went in search of a Sri Lanka Frogmouth roosting site which Chaminda had found a few days ahead of the group's arrival. The bird was found and everybody had a good, clear sighting. During the rest of the evening we did more birding around the hotel premises where we found Crested Serpent Eagle, Tickell's Blue Flycatcher, Greenish Warbler and a Palm Squirrel. The distance call of the Brown Wood Owl was also heard as we returned to the hotel.

We arrived back at the hotel at 6.30pm and met for the checklist at 7pm. After a briefing about the next day we had dinner

### Day 3

**Monday 9th November**

We started the day with tea at 5.15am, and set off at 5.30am for some pre-breakfast birding. After walking for about three kilometres we crossed a hanging bridge towards a small village. Sightings included Sri Lanka Junglefowl, Black-capped Bulbul, Yellow-fronted Barbet, Lesser Yellownape, Black-rumped Flameback, Oriental White-eye, Green Imperial Pigeon, Spot-winged Thrush, Oriental Magpie Robin and Orange-billed Babbler. We returned to the hotel at 8.30am for breakfast.

After breakfast the rain was getting pretty heavy, and later Saman led the group to Mahakandarawo Rainforest where we had to cross a swollen river in dug-out canoes to get to the entrance of the forest. We encountered Dark-fronted Babbler, Malabar Trogon, Black Eagle and Grey Wagtail amongst many other birds which we had seen the day before. We also saw a wide variety of butterflies including Grey Pansy, White Four-ring and Blue Oak Leaf. Kangaroo Lizard, Green Garden Lizard and Giant Millipede were also seen.

We returned to the hotel for lunch and a break. At 4.30pm the rain had eased a bit and we left for some birding in Kithulgala village. Chestnut-backed Owlet and Lesser Hill Myna were the new birds seen this evening.

We headed back to the hotel at 6pm and met up for the checklist at 7pm. After dinner, group members retired to their rooms to be ready for another early start the following day.

## Day 4

## Tuesday 10th November

We started our day at 5.15am with tea, and then headed out for another pre-breakfast birding session. Our target species was Green-billed Coucal which we managed to see, along with Asian Koel, Grey Hornbill and Black Bulbul. We returned to the hotel at 7.30am for breakfast. Chaminda had located the roosting site of Serendib Scops Owl so after breakfast Saman escorted the group into the forest. The site was rather difficult to access with the adverse weather affecting the forest, but everybody made it and had excellent views of this beautiful bird. We also saw White-bellied Sea Eagle, Oriental Honey-buzzard and Sri Lanka Crested Drongo.

We checked out of the hotel at 11am and left for Nuwara Eliya. After two days of heavy rain it was a welcoming sight to see the sun. En route we encountered Chestnut-headed Bee-eater and Flying Fox. The scenery changed as the winding roads took us to the next hotel perched up in the mountains. We had lunch at 1.30pm and relaxed until 3pm.

Our next birding session was at Bomuruella where we encountered Dull-blue Flycatcher, Sri Lanka White-eye, Yellow-eared Bulbul, Grey-headed Canary Flycatcher, Mountain Hawk Eagle, Great Tit and Bar-winged Flycatcher-shrike. We also visited Seethaeliya before returning to the hotel at 6pm. We met for the checklist at 7pm and then, after dinner, we retired to our rooms as we would be leaving for Horton Plains at 5am.

## Day 5

## Wednesday 11th November

After tea at 4.15am, we left for Horton Plains. We had reached the entrance by 6am and proceeded to an area outside the National Park where one of the group spotted a Crimson-back Woodpecker. Inside the park we encountered Common Buzzard, Black-winged Kite, Pied Bushchat, Hill Swallow, Sri Lanka Bush Warbler, Scimitar Babbler, Zitting Cisticola, and Common Kestrel. We also saw the very rare Pygmy Lizard and Round-Snout Pygmy Frog, together with Black-lipped Lizard, several Samba Deer and Purple-faced Leaf Monkey.

We reached the hotel at 1.30pm for lunch. We set out again at 3pm to Victoria Park, where we encountered Indian Pitta, Forest Wagtail and Indian Blue Robin. We again visited Seethaeliya and this time we spotted Sri Lanka Whistling Thrush. We came back to the hotel at 5.45pm and, after the checklist, we had dinner and went to bed.

## Day 6

## Thursday 12th November

We had an early start with a pre-breakfast birding session to Seethaeliya, for another look at Sri Lanka Whistling Thrush, and after that went to the Bomuruella forest where we saw Sri Lanka Wood Pigeon.

After breakfast, we checked out of the hotel and proceeded to Embilipitiya. En route we stopped at the Surrey Estate for some birding and encountered a Brown Wood Owl with her chick. Our next stop was in Ella at

12.15pm for lunch and a little birding from the picturesque garden of the Ella Motel where we spotted Ashy Prinia. On our way to Embilipitiya we saw two Elephants walking through the forest patch (Elephant Corridor), almost camouflaged by the surrounding bushes. Indian Darter, Indian Peafowl, Painted Stork, Woolly-necked Stork and Purple Swamphen were also welcome sightings. At the hotel entrance we were greeted with the sighting of a Collared Scops Owl.

We did our checklist at 7pm, and then met at the restaurant at 7.30pm for dinner before retiring to our rooms.

## Day 7

## Friday 13th November

With a picnic breakfast, we left the Centauria Hotel and proceeded to Udawalawe National Park for a Jeep Safari. Sri Lanka Woodshrike, Brown Fish Owl, Jerdon's Bushlark, Paddyfield Pipit, Indian Roller and Yellow-eyed Babbler were some of the birds encountered during the safari. We also saw Water Buffalo, Torque Macaque, Grey Langur, Ruddy Mongoose, Spotted Deer, Soft Shelled and Hard Shelled Terrapins, Mugger Crocodile, Land Monitor, Common Rat Snake and Common Garden Lizard.

After lunch on our way to Singharaja we were very lucky to come across a rare migrant: Citrine Wagtail. We reached Singharaja at 6.15pm and were greeted with a hot cup of tea. It was raining heavily in the evening as we sat down to do the checklist, which was followed by dinner to conclude the day.

## Day 8

## Saturday 14th November

After breakfast at 5.30am, we left for the Singharaja Rainforest with a picnic lunch. On our way to the forest entrance we saw Crimson-fronted Barbet, and as we proceed further we encountered White-faced Starling, Sri Lanka Blue Magpie, Ashy-headed Laughingthrush, Red-faced Malkoha and the elusive Sri Lanka Scaly Thrush.

We returned to the hotel 5pm. Whilst doing the checklist we counted 31 endemic bird species already seen: just two more to go. We had dinner at 8pm.

## Day 9

## Sunday 15th November

After tea at 4.45am we headed to the Kethalapatha area amidst heavy rain, where we encountered Sri Lanka Spurfowl. During breakfast at the hotel Chaminda heard the call of Sri Lanka Myna and quickly gathered the group outside to see it perched on a branch in a nearby tree. We then birded around Singharaja village and spotted Rufous-bellied Eagle. We came back to the hotel for lunch, and then checked out at 1.30pm.

We reached our final hotel at 4.40pm and did a little birding in the hotel garden where we saw Black Bittern. Our final dinner was at 8pm and we celebrated having seen Sri Lanka's 33 endemic bird species.

## Day 10

## Monday 16th November

After breakfast, we headed to the airport for our return flight. Back in the UK, another Naturetrek adventure came to an end.
