Tour participants: Stanley & Margaret Rest  
David & Karen Hargreave  
Michael & Karen Galtry  
Geoffrey Stratford  
Martin Warburton

This trip covers different habitats by staying in two of the best lodges in Panama, in lowland forest and foothill forest (The Canopy Tower and The Canopy Lodge).

In this Naturetrek holiday, we had a wonderful time. We saw all the toucans that can be seen in central Panama, to be precise five species, all the six trogon species, all the motmots (four species) and five species of kingfisher including Green and Rufous.

The birding was excellent but it was very hard not to look at the wonderful trees and flowers that were all around us. Not just trees but the wonderful mammals that here; howler monkeys, tamarinds, sloth, tamandua, etc.

## Day 1

**Wednesday 26th April**

Arrival day; all the members of the group arrived in Tocumen Airport by 8:00 o'clock at night. It took us about 35 minutes to get to the Canopy Tower from the airport. Once there we met in the dining room area for snacks and drinks. I gave the group a few instructions for the next day since I figured that everybody must be tired after a long trip from London.

## Day 2

**Thursday 27th April**

Semaphore Hill (am); One of the many things that I like doing from Canopy Tower is that on day one the tour began right at the observation deck, with Panamanian coffee and hot water for tea, while we look at Toucans and Parrots. The Keel-billed Toucan is one of the birds that we enjoy seeing from the Observation Deck because we can really study it at eye level. The Green-Shrike Vireo showed up before breakfast. This is one of the birds that is not so easy to see if you are looking from below.

Another bird that has become a Canopy Tower symbol is the Blue Cotinga and everyone got to see it.

It was about time for a Canopy Tower full breakfast. After breakfast we all met at the hummingbird feeders where we saw the beautiful male Violet-bellied Hummingbird.

We continued our morning birding by walking down Semaphore Hill, on the way down we got to see a beautiful male Red-capped Manakin, Black-bellied Wren, Squirrel Cuckoo, and Broad-billed Motmot. We were half way down and it was almost time to head back for lunch when I heard an Army ant swarm. Yes! That's what we wanted!

It was not big but we got fabulous views of Bicolor-Antbird, Plain-brown Woodcreeper, Cocoa Woodcreeper, Western Slaty Antshrike, Dot-winged Antbird, Checker-throated Antwren, and one of the most beautiful antbirds and not so easy to see is the Ocellated Antbird. Everyone got to see it very well. The morning was over and it was time to head back for a wonderful lunch.

This afternoon before going out we had a very heavy rain storm for about 2 hours. Everyone thought that the day was over and that we were not going to go out. I just said "Let's wait until it stops" everyone thought that I was kidding.

Yes! I was not kidding, we did go out when it stopped raining. We drove to the Ammo Ponds. On the way to the Ponds we stopped to see Collared Aracari and in a tree close by we saw a tiny raptor! It was the well named Tiny Hawk.

Once at the Ponds, the sun came out and the birds around the Ponds were fantastic; Rufescent Tiger-Heron, Barred Antshrike, Panama Flycatcher, Green and Rufous Kingfisher, just to mention a few of them. Oh! Did I mention Collared-Forest Falcon, no! Well we saw it too.

The afternoon was almost over so we started to go back to the Canopy Tower for a cocktail and appetizer.

## Day 3

Friday 28th April

### Pipeline Road (Day Trip)

An early start for an all day trip to the famous Pipeline Road.

The tour began right at Rio Juan Grande which is the first bridge going in to the road. Once there we started to hear all kinds of bird like Cinnamon Woodpecker, Black-breasted Puffbird, Fruitcrows, Yellow-back Oriole, Golden-collared Manakin, Lineated Woodpecker, and Slaty Tailed Trogon. We were lucky and saw each one with the exception of Cinnamon Woodpecker.

Once again the Pipeline had given us a great welcome.

We kept walking a little bit more and suddenly I heard a Barred Forest Falcon. It sound very far but I have experienced this before. The bird can be closer than you think. We started to call the bird in and it did come very close to us, to be precise right over head and it stayed there for about a minute and then flew away from us but came back and some people had scope view of this elusive bird.

Another bird that we must mention is the Streak-chested Antpitta, we did not see it but we got to learn the call after trying for a long time.

After lunch, a heavy rain came for about 30 minutes, so we decided to drive further along the Pipeline Road to try for a Pied Puffbird, this is another bird that escaped from us. But we got beautiful display views of Red-capped Manakin.

## Day 4

Saturday 29th April

Tocumen Marsh and Cerro Azul

Once again, an early start for a great birding day. The first stop was the Tocumen Marsh, (a Private Farm), that is wonderful for bird watching.

Hérons and Egrets were all over the place. Let's mention some of them; Cocoi Heron, Great, Cattle and Snowy Egret, Striated Heron, White Ibis, Yellow-crowned and Black-crowned night Herons, Tricolored Heron. The birding in this area gets better and better every time I go there.

Another bird that we must mention is the Peregrine Falcon that was flying around scaring all kinds of little birds.

Roadside Hawk was on the side of the road and we got excellent views of White-tailed Kite, Pied-water Tyrant, Yellow-crowned Parrot, Yellow-billed Cacique, Pale-breasted Spinetail, American Pygmy, Amazon and Green Kingfisher.

The morning started to warm up so it was time for the famous mid-morning snack that did last too long.

After re-energizing we started to go up to the Eastern Foothill Cerro Azul which is about 45 minutes from Tocumen Marsh.

Altos de Cerro Azul is another private area that Canopy Tower has special permission to visit. We rented a private house for the afternoon to have a picnic lunch with wonderful views of the Chagres River National Park.

Tanagers like Emerald, Speckled, Bay-headed, Hepatic, and Golden-hooded were the highlight of this visit.

We also saw Violet-capped Hummingbird, Scarlet-thighed Dacnis, Blue Dacnis and Green and Red-legged Honeycreepers.

The flying Raptors are spectacular up here especially the Swallow-tailed Kite, White Hawks and the beautiful King Vulture.

Well another great day that is what the members of the group kept saying and I felt the same, what a great day!

On the way back to the Canopy Tower we stopped at Costa del Este for shorebirds but the tide was way out so we could not see much there.

## Day 5

Sunday 30th April

Plantation Trail

After starting on the Canopy Tower Observation Deck we went to the bottom of Semaphore Hill, to walk on the Plantation Trail.

Plantation Trail used to be an old French Plantation of cocoa, coffee and Rubber trees in the late 1800 early 1900. Right now is a great forest and we can not even see the old road that was built there.

In the entrance of the Plantation Trail we had marvelous views of Black-cheeked Woodpecker nesting.

Going in the Plantation Trail we got to see Blue-crowned Manakin, Rufous and Broad billed Motmot also delighted us.

Another great bird of the trail was the Olivaceous Woodcreeper and some people got to see the elusive Golden-crowned Spadebill. Plus we got great views of Black-throated Trogon and Song Wren.

After lunch we went out to Carmen's feeders located in Gamboa town. Here we enjoyed the Red-legged Honeycreeper, Lemon-rumped Tanager, the Crimson-backed Tanager which is a common bird but is always a highlight.

The other location that we visited was the Chagres River, where we had a wonderful view of a pair of Blue-crowned Motmot as well as Tropical Pewee and White-winged Becard.

We also had Southern Lapwing walking a long the grass.

## Day 6

Monday 1st May

### Pipeline Road

Once again we were up early in the morning to go back to the Pipeline Road for specific target species that we missed on the previous visit.

On the way to the Pipeline we had about an hour delay. And it was not my fault; there was a Laughing Falcon perched on the top of a tree in the main road and with perfect sunlight. We could not ask for a better view!

But we can not just blame the falcon for this delay. We have to blame in part the Pheasant Cuckoo which gave us great open view plus scope views after flying in the dense part of the forest.

We finally got to the Pipeline road after the great delay. As soon as we got there started to do our research for target species.

Great Tinamou was one of the targets and we did see it, a bird that can be well camouflaged in the forest. We can hear it more than see it. White tailed-Trogon and Black tailed Trogon were also very cooperative with us. A beautiful fly by Gray-headed Kite, was also good to see.

Everyone was very satisfied by the morning birding in Pipeline road. So it was time to go back for lunch at the Canopy Tower.

After a short siesta, we went to the Summit Garden and Harpy Eagle Exhibit to learn a little bit more about our national bird and the re introduction project that is going on in the Soberania National Park.

Summit Garden is one of the most beautiful parks in Panama and the walk around it can be very interesting because Oropendolas and Caciques nest on the palm trees, and their nests are very special plus they are colony nester.

The Park was kind of full of people, well today is a holiday (Labor Day).

So I decided to head back to the Canopy Tower and on to the Summit Ponds for a quiet look and I am glad we did that!

We got beautiful views of Grey-necked Woodrail, Boat-billed Heron, Amazon Kingfisher, Lesser Kiskadee and Green Heron.

We were almost ready to leave for cocktail time when one of the most beautiful and secretive herons showed up. Yes! The Agami Heron gave us lovely views. We got it on film. What a way to end the day!

## Day 7

Tuesday 2nd May

Old Gamboa Road

Today we started at the Observation Deck where we got to see one more time the Green-Shrike Vireo, Scaled Pigeon plus a Chesnut Mandible Toucan that was not seen until today.

Everyday we got something new from the observation deck.

After another great breakfast we drove to Old Gamboa Road which is located about 10 minutes from Canopy Tower. The habitat around old Gamboa road is dry forest, so there are species of bird that do not occur in the areas that we had visited earlier on the trip.

In this dry habitat forest we got wonderful views of Jet Antbird, Plain Xenops, Dusky Antbird, Faced Antshrike, and Black-faced Antthrush walked in front of us.

Old Gamboa Road is a great place for birds like Forest Elaenia, Yellow-bellied Elaenia, Panama Flycatcher, Streaked Flycatcher, and Eastern Kingbird by the dozen migrating back to North America.

One of the birds that everyone on the group was very excited to see is the Spectacled Owl.

It was another productive morning. So we all went back for lunch and to get ready for an afternoon visit to the Panama Canal Miraflores Locks Visitor Center, which is a great display with a lot of information about this amazing piece of engineering. We saw two ships going through the locks as well as Magnificent Frigatebird at eye level from the Miraflores Deck.

The visitor center closes by 5:00 pm so we decided to head back to the Canopy Tower for check list and dinner.

After dinner we went out for a night drive.

On the night drive we got to see Two-toed Sloth, Central American Wolly Opposum and the false Vampire bat. We played owl calsl in a couple of spots but no luck with owls tonight. What we had very well were Great Potoo and Common Potoo. The most wonderful thing of these two birds is their call especially the Great Potoo.

The starry night was very pretty and was very hard to head back to sleep.

## Day 8

## Wednesday 3rd May

The group went up to the Canopy Tower Deck early in the morning to practice birding without me. Since I was going to meet them up in the Canopy Lodge and they did very well. I am proud of you guys!

This is what they told me they saw; Green-Shrike Vireo, Blue Cotinga, Keel-billed Toucan, Scaled Pigeon, Red-lore Parrot, Gray-breasted Martin, Barn Swallow, plus others. Good job crew.

At around 10:00 am in the morning the group got in the van with Edgardo (Panama's second best driver), and started a trip that lasted about 2 hours to get to the Canopy Lodge.

I met the group at the lodge, they got there one minute earlier than me. Guess what they were doing? Yes! They were already birding by looking at the lodge hummingbird feeders.

The Canopy Lodge is a brand new place especially built for people that love nature. The rooms and the location are just perfect for our tours plus the birds and the forest are different from the Canopy Tower. This is the best combination.

Well, we all went to our rooms to get set and then for lunch. The place where we had lunch is all open so we are always aware of what is going on around us.

After lunch we started to look at the feeders and flowers. On the feeder we saw Lemon-rumped Tanager, Crimson-backed Tanager, Blue-gray Tanager, Thick-billed Euphonia, just for mention few of them.

In the flower garden we had hummingbirds like Garden Emerald, Snowy-bellied, Rufous-crested Coquette, Green Thorntail. All this wonderful birds were just seeing from the dining room area and this is just the beginning of the Canopy Lodge tour.

In the afternoon we went to the Cariguana Trail, where we had Rufous-breasted Wren, Rufous and White Wren, another hummingbird that was nice to see here was the Long-billed Starthroat and also Blue-crowned Motmot. This is just a little warm up for what was coming on the next days.

## Day 9

## Thursday 4th May

El Chiru

Breakfast was set for 5:30 am, since we had to drive for about an hour and 15 minutes to get to El Chiru, which is Pacific Dry Forest area.

In this area we had beautiful views of Aplomado Falcon, Lance-tailed Manakin, Pale-eye Pygmy-tyrant, Mouse-colored Tyrannulet, Lesser Yellow-headed Vulture, Yellow-headed Caracara, Sapphire-throated Hummingbird and many others.

We started our way back to the lodge when I decided to take the group to the Pacific Ocean which is about 5 minutes from the Panamerican high way. And guess what? Everybody loves it. It was nice to see the ocean plus a few birds flying around. Next time bring your swimming suit. Ok!

Today we were a little bit late for lunch but happy for a great morning.

After lunch we went to the Canopy Lodge grounds and up to the Canopy Adventure area.

Around the lodge we saw Tawny-crested Tanager, Stripe-throated Hermit, Bay-headed Tanager, Red-crowned Ant-tanager, and White-lined Tanager.

The birding around the lodge is great we did not get to far from the lodge.

## Day 10

## Friday 5th May

Altos Del Maria (all day trip)

A 5:00 am breakfast was set for us today.

Altos Del Maria is a place that is higher than El Valle. The birding-up here is quite special.

Some of the highlights from this day are: Blue-throated Toucanet, Band-tailed Barbthroat, Rufous-breasted Hermit, Silver-throated Tanager, Common-bush Tanager; was raining quiet often up here but this is typical weather of the cloud forest.

The morning was almost over so we decided to start going down to have our picnic lunch in a nice area with toilets and shelter for the heavy rain that last for about 35 minutes.

After that we started to bird back to the lodge but in a different way. A gravel road that is surrounded by beautiful forest. The adventure began when we tried for a Black-crowned Antpitta but we didn't have any luck in this first spot. I told the group we will try again later since we have several spots from where we have been seen this elusive bird.

As we were moving on we heard a very strange sound, for a minute I did not know what it was but suddenly it came to my brain. It was an Orange-bellied Trogon female that was on the side of the road and on the other side of the road was a stunning male.

As we were walking away I saw a palm tree that looks just like the one that the Toucanet likes to eat in Cerro Azul, which is the only place from where I have seen this bird. I started to play the Toucanet Call and guess who came into a snag right over head. A pair of Yellow-eared Toucanet. I could not believe it, since I have told the group that they have missed their chance to see it in Cerro Azul. Altos Del Maria is a place full of surprises.

We were all tired from a long day trip so we started to head back to the Canopy Lodge for dinner, but before doing that we stopped at special spot to try again for the Black-crowned Antpitta and a few of us were lucky to see it. Another great highlight of this day tour was a beautiful Golden frog (Panama's endemic amphibian). It was another great birding day that was over too soon.

Once we got to the Canopy Lodge we had a very special host waiting for us on the river water that passes in front of the Lodge. Our host for that afternoon was the Sunbittern, what a wonderful bird. This bird was Michael & Karen Galtry wedding anniversary presents. Not bad uh!!

## Day 11

Saturday 6 May

Today was kind of a relaxing day for the group since we didn't have to wake up so early to be out birding. The plan for the day was to bird around the Canopy Lodge trails. Our targets birds for the day were Tody Motmot, Great Antshrike, White-tipped Sicklebill and the Dull-Mantled Antbird. We got them except the Dull-mantled Antbird. The morning was very rainy but that did stop us from going out birding.

In the afternoon we drove up to La Mesa, and the weather was very cloudy - well we were in the cloud forest and it was expected to have this kind of weather. We all got to see Masked Tityra nesting in a cecropia tree and Collared Aracari gave us marvelous views.

Another good sighting was Wedge-billed Woodcreeper that we saw before coming down to the Canopy Lodge.

## Day 12

Sunday 7 May

This was my last morning of birding with the group. The plan for today was to go up to the Gaital Hill which is another wonderful cloud forest located about 20 minutes from the Lodge.

Once at the base of the Hill the weather did seem very promising for us, it was very cloudy and no sign of light in the sky. I thought let's give it a try and go up a little bit. On the way up we had beautiful views of White-throated Spadebill, Silver-throated Tanager, and Spotted Woodcreeper.

As were going up the cloud started to get very dense and no sight of light. I thought about heading back down to the lodge since nothing was really calling and we were half way up no luck with mix flocks of birds. I asked everyone in the group if they wanted to go back down and at the same time I told them about the beautiful view of El Valle Town from the top of the hill. Everyone in the group said, Carlos we wanted to keep going up the

hill. They did make the right choice because almost on top of the hill we had a great sighting of the Black Guan which much of the people in the group got to see as well as a beautiful hummingbird; the Green-crowned Brilliant.

We all got to the view point area. Up there were not many clouds around the top of the hill so we got beautiful view of el Valle town as well as the Pacific Ocean.

We started our way down hoping for those mix flocks and guess what! We bumped into a mixed flock with wonderful birds like Plain Antvireo, Common-bush Tanager, Spotted Barbtail, White-ruffed Manakin, Plain Xenops, Scale-crested Pygmy-Tyrant, and Tawny-capped Euphonia. That mixed flock topped up our energy to go down for lunch. But we were not done yet for the morning because a Purplish-backed Quail-Dove that we tried to see on the way up was calling very close to the trail and this was our only chance for this one. I went off the trail and found it calling from a tree branch that was not so easy to see it from the trail. So I did a little bit of leaf cutting by hand to get this stunning bird in the scope. Wow!!

After Lunch, we went out to visit el Valle town Sunday market for a little bit of shopping and to see a Blue and White Swallow. It was nice to see all the local people buying and selling their stuff.

We started our way back to the Canopy Lodge but before going there we must give one more try to an Antbird that is been avoiding us all week and there was one more place to check out and that was the Acueducto Trail near the Lodge. We all went there and on the way there we had a beautiful Black-throated Trogon on the scope. Well we began our search for the Dull-Mantled Antbird which was very cooperative with us because everyone got to see this beautiful bird that has a distinctive red eye.

This trip could not been better; we all have fun and got wonderful views of the birds. Most of the birds in this holiday were seen by everyone in the group, very few were missed.

I enjoy this trip very much and the main reason is that we had a great group plus I love what I do so much and with you this could not be possible. Thanks to all of you for coming to Panama in a NATURETREK holiday.

I hope to see you in the Bird Fair. By the way do you want me to bring some Garlic bread for you guys? Or do you want Pineapple upside down cake?

I just finished this report eating these two delicious things!  
Take care and see you soon!

## Species list

### Birds

Total Species 332

13 of those were heard only.

Notice that the bird list includes birds that were only seen by the participants. This list does not include birds that were just seen by the guide.

	<b>Species</b>	<b>Location</b>
1	<b>Great Tinamou</b> <i>Tinamus major</i>	Seen in, CA April 29 and PP May 1
2	<b>Little Tinamou</b> <i>Crypturellus soui</i>	Heard only in OG May 2
3	<b>Brown Pelican</b> <i>Pelecanus occidentalis</i>	Seen in Several places
4	<b>Neotropic Cormorant</b> <i>Phalacrocorax brasilianus</i>	Seen in Several places
5	<b>Anhinga</b> <i>Anhinga anhinga</i>	Seen in Several places
6	<b>Magnificent Frigatebird</b> <i>Fregata magnificens</i>	Seen in Several places
7	<b>Rufescent Tiger-Heron</b> <i>Tigrisoma lineatum</i>	Seen in, Ammo Ponds April 27
8	<b>Great Egret</b> <i>Ardea alba</i>	Seen in TM, April 29
9	<b>Snowy Egret</b> <i>Egretta thula</i>	Seen in TM, April 29
10	<b>Little Blue Heron</b> <i>Egretta caerulea</i>	Seen in Several places
11	<b>Cattle Egret</b> <i>Bubulcus ibis</i>	Seen in Several places
12	<b>Green Heron</b> <i>Butorides virescens</i>	Seen in Several places
13	<b>Striated Heron</b> <i>Butorides striatus</i>	Seen in Several places
14	<b>Great Blue Heron</b> <i>Ardea herodias</i>	Seen in, Summit G, Summit Ponds May 1
15	<b>Cocoi Heron</b> <i>Ardea cocoi</i>	Seen in TM, April 29
16	<b>Tricolored Heron</b> <i>Egretta tricolor</i>	Seen in TM, April 29
17	<b>Agami Heron</b> <i>Agamia agami</i>	Seen in, Summit Ponds, May 1
18	<b>Yellow-crowned Night-Heron</b> <i>Nyctanassa violacea</i>	Seen in TM, April 29
19	<b>Black-crowned Night-Heron</b> <i>Nycticorax nycticorax</i>	Seen in TM, April 29
20	<b>Boat-billed Heron</b> <i>Cochlearius cochlearius</i>	Seen in, Summit Ponds, May 1
21	<b>Wood Stork</b> <i>Mycteria americana</i>	Seen in TM, April 29
22	<b>White Ibis</b> <i>Eudocimus albus</i>	Seen in TM, April 29
23	<b>Roseated Spoonbill</b>	Seen in TM, April 29
24	<b>Black Vulture</b> <i>Coragyps atratus</i>	Seen in Several places
25	<b>Turkey Vulture</b> <i>Cathartes aura</i>	Seen in Several places
26	<b>King Vulture</b> <i>Sarcoramphus papa</i>	Seen in PP April 28 and CA April 29
27	<b>Lesser y-headed Vulture</b>	Seen in El Chiru, May 4
28	<b>Black-bellied Whistling Duck</b> <i>Dendrocygna autumnalis</i>	Seen in TM, April 29
29	<b>Muscovy Duck</b> <i>Cairina moschata</i>	Seen in, Summit Ponds May 1
30	<b>Osprey</b> <i>Pandion haliaetus</i>	Seen in TM, April 29
31	<b>Gray-headed Kite</b> <i>Leptodon cayanensis</i>	Seen in PP, May 1
32	<b>White-tailed Kite</b> <i>Elanus leucurus</i>	Seen in TM, April 29
33	<b>Swallow-tailed Kite</b> <i>Elanoides forficatus</i>	Seen in Several places
34	<b>Double-toothed Kite</b> <i>Harpagus bidentatus</i>	Seen in SH, April 27 and PP, May 1
35	<b>White Hawk</b> <i>Leucopternis albigollis</i>	Seen in Several places
36	<b>Tiny Hawk</b> <i>Accipiter superciliosus</i>	Seen in SH, April 27 and April 28
37	<b>Great Black-Hawk</b> <i>Buteogallus urubitinga</i>	Seen in TM, April 29
38	<b>Gray Hawk</b> <i>Asturina plagiata</i>	Seen in Canopy Lodge May 4
39	<b>Roadside Hawk</b> <i>Buteo magnirostris</i>	Seen in TM, April 29
40	<b>Swainson's Hawk</b> <i>Buteo Swainsoni</i>	Seen in PP April 28
41	<b>Broad-winged Hawk</b> <i>Buteo platypterus</i>	Seen in PP April 28
42	<b>Short-tailed Hawk</b> <i>Buteo brachyurus</i>	Seen in SH, April 27 and May 2

	Species	Location
43	<b>Black Hawk-Eagle</b> <i>Spizaetus tyrannus</i>	Seen in Several places
44	<b>Crested Caracara</b> <i>Polyborus plancus</i>	Seen in Altos del Maria May 5
45	<b>Yellow-headed Caracara</b> <i>Milvago chimachima</i>	Seen in Several places
46	<b>Collared Forest-Falcon</b> <i>Micrastur semitorquatus</i>	Seen in, Ammo Ponds April 27
47	<b>Laughing Falcon</b> <i>Herpetotheres cachinnans</i>	Seen on the way to Pipeline rd May 1
48	<b>Barred Forest-Falcon</b> <i>Micrastur ruficollis</i>	Seen in PP April 28
49	<b>Slaty-backed Forest Falcon</b> <i>Micrastur mirandollei</i>	Heard only in Pipeline May 1
50	<b>Bat Falcon</b> <i>Falco rufigularis</i>	Seen in Canopy Tower April 30
51	<b>Peregrine Falcon</b> <i>Falco peregrinus</i>	Seen in TM, April 29
52	<b>Aplomado Falcon</b>	Seen in El Chiru, May 4
53	<b>Gray-headed Chachalaca</b> <i>Ortalis cinereiceps</i>	Seen in Several places
54	<b>Black Guan</b> <i>Chamaepetes unicolor</i>	Seen in, Gaital Hill May 7
55	<b>White-throated Crake</b> <i>Laterallus albigularis</i>	Heard only in Ammo Ponds April 28
56	<b>Gray-necked Wood-Rail</b> <i>Aramides cajanea</i>	Seen in Several places
57	<b>Purple Gallinule</b> <i>Porphyryla martinica</i>	Seen in TM, April 29
58	<b>Sunbittern</b> <i>Eurypyga helias</i>	Seen in Altos del Maria May 5
59	<b>Wattled Jacana</b> <i>Jacana jacana</i>	Seen in Several places
60	<b>Southern Lapwing</b> <i>Vanellus chilensis</i>	Seen in Several places
61	<b>Gray Plover</b>	Seen in Costa del Este April 29
62	<b>Spotted Sandpiper</b> <i>Actitis macularia</i>	Seen in TM, April 29
63	<b>Willet</b> <i>Catoptrophorus semipalmatus</i>	Seen in Costa del Este, April 29
64	<b>Western Sandpiper</b> <i>Calidris mauri</i>	Seen in Costa del Este, April 29
65	<b>Laughing Gull</b> <i>Larus atricilla</i>	Seen in Several places
66	<b>Royal Tern</b> <i>Sterna maxima</i>	Seen in Costa del Este. April 29
67	<b>Rock Pigeon</b> <i>Columba livia</i>	Seen in TM, April 29 and Miraflores locks May 2
68	<b>Pale-vented Pigeon</b> <i>Columba cayennensis</i>	Seen in Several places
69	<b>Scaled Pigeon</b> <i>Columba speciosa</i>	Seen in Several places
70	<b>Short-billed Pigeon</b> <i>Columba nigrirostris</i>	Heard only in PP April 28 and CA
71	<b>Plain-breasted Ground Dove</b> <i>Columbina minuta</i>	Seen in TM, April 29 and El Chiru May 4
72	<b>Ruddy Ground-Dove</b> <i>Columbina talpacoti</i>	Seen in Several places
73	<b>White-tipped Dove</b> <i>Leptotila verreauxi</i>	Seen in Several places
74	<b>Gray-chested Dove</b> <i>Leptotila cassinii</i>	Seen in , CA April 29 and Canopy Lodge May 7
75	<b>Purplish-backed Quail-Dove</b> <i>Geotrygon lawrencii</i>	Seen in Gaital Hill May 7
76	<b>Ruddy Quail-Dove</b> <i>Geotrygon montana</i>	Seen in PP April 28
77	<b>Orange-chinned Parakeet</b> <i>Brotogeris jugularis</i>	Seen in Several places
78	<b>Brown-throated Parakeet</b> <i>Aratinga pertinax</i>	Seen on the way to El Chiru May 4
79	<b>Brown-hooded Parrot</b> <i>Pionopsita haematotis</i>	Seen in PP April 28
80	<b>Blue-headed Parrot</b> <i>Pionus menstruus</i>	Seen in Several places
81	<b>Red-lored Amazon</b> <i>Amazona autumnales</i>	Seen in Several places
82	<b>Mealy Amazon</b> <i>Amazona farinosa</i>	Seen in SH, April 27 and May 2
83	<b>Yellow-crowned Parrot</b> <i>Amazona ochrocephala</i>	Seen in TM, April 29
84	<b>Squirrel Cuco</b> <i>Piaya cayana</i>	Seen in Several places
85	<b>Pheasant Cuckoo</b> <i>Dromococcyx phasianellus</i>	Seen in on the way to Pipeline rd May 1
86	<b>Greater Ani</b> <i>Crotophaga major</i>	Seen in , Ammo P April 27 and Summit Ponds May 1
87	<b>Groove-billed Ani</b> <i>Crotophaga sulcirostris</i>	Seen in El Chiru, May 4
88	<b>Smooth-billed</b> <i>Crotophaga ani</i>	Seen in, Ammo P April 27 and TM, April 29
89	<b>Spectacled Owl</b> <i>Pulsatrix perspicillata</i>	Seen in OG May 2
90	<b>Great Potoo</b> <i>Nyctibius grandis</i>	Seen on the Night Drive May 2
91	<b>Common Potoo</b> <i>Nyctibius griseus</i>	Seen on the night Drive May 2
92	<b>Short-tailed Swift</b> <i>Chaetura brachyura</i>	Seen in Several places
93	<b>White-collared Swift</b> <i>Streptoprocne zonaris</i>	Seen in, CA April 29 and May 5
94	<b>Band-rumped Swift</b> <i>Chaetura spinicauda</i>	Seen in Several places
95	<b>Vaux's Swift</b> <i>Chaetura vauxi</i>	Seen in SH, April 27
96	<b>White-tipped Sicklebill</b> <i>Eutoxeres aquila</i>	Seen in El Canopy Adventure, May 6

	Species	Location
97	<b>Rufous-breasted Hermit</b> <i>Glaucis hirsuta</i>	Seen in Altos del Maria May 5
98	<b>Green Hermit</b> <i>Phaethornis guy</i>	Seen in Several places
99	<b>Western Long-tailed Hermit</b> <i>Phaethornis longirostris</i>	Seen in Several places
100	<b>Stripe-throated Hermit</b> <i>Phaethornis striigularis</i>	Seen in El Canopy Adventure 4 and 7
101	<b>Band-tailed Barbthroat</b> <i>Threnetes ruckeri</i>	Seen in Altos del Maria May 5
102	<b>White-necked Jacobin</b> <i>Florisuga mellivora</i>	Seen in Several places
103	<b>Black-throated Mango</b> <i>Anthracothorax nigricollis</i>	Seen in OG May 2 and May 4 at
104	<b>Rufous-crested Coquette</b> <i>Lophornis delattrei</i>	Seen in Canopy Lodge
105	<b>Green Thorntail</b> <i>Popelairia conversii</i>	Seen in Canopy Lodge
106	<b>Garden Emerald</b> <i>Chlorostilbon assimilis</i>	Seen in Several places
107	<b>Violet-crowned Woodnymph</b> <i>Thalurania colombica</i>	Seen in Several places
108	<b>Violet-capped Hummingbird</b> <i>Goldmania violiceps</i>	Seen in, CA April 29
109	<b>Violet-headed Hummingbird</b> <i>Klais guimeti</i>	Seen in CA April 29 and Canopy Lodge
110	<b>Violet-bellied Hummingbird</b> <i>Damophila Julie</i>	Seen in Canopy Tower, April 27.
111	<b>Sapphire-throated Hummingbird</b> <i>Lepidopyga coeruleoqularis</i>	Seen in TM, April 29 and May 4 at
112	<b>Blue-chested Hummingbird</b> <i>Polyerata amabilis</i>	Seen in Several places
113	<b>Snowy-bellied Hummingbird</b> <i>Saucerottia edward</i>	Seen in Several places
114	<b>Rufous-tailed Hummingbird</b> <i>Amazilia tzacatl</i>	Seen in Several places
115	<b>White-vented Plumeleteer</b> <i>Chalybura buffoni</i>	Seen in Several places
116	<b>Bronze-tailed Plumeleteer</b> <i>Chalybura urochrysis</i>	Seen in Several places
117	<b>Green-crowned Brilliant</b> <i>Heliodoxa jacula</i>	Seen in Gaital Hill May 7
118	<b>Long-billed Starthroat</b> <i>Heliomaster longirostris</i>	Seen in Cara Iguana Trail May 3
119	<b>White-tailed Trogon</b> <i>Trogon viridis</i>	Seen in PP, May 1
120	<b>Violaceous Trogon</b> <i>Trogon violaceus</i>	Seen in Several places
121	<b>Orange-bellied Trogon</b> <i>Trogon aurantiiventris</i>	Seen in Altos del Maria May 5
122	<b>Black-throated Trogon</b> <i>Trogon rufus</i>	Seen in Several places
123	<b>Black-tailed Trogon</b> <i>Trogon melanurus</i>	Seen in PP, May 1
124	<b>Slaty-tailed Trogon</b> <i>Trogon Massena</i>	Seen in Several places
125	<b>Ringed Kingfisher</b> <i>Ceryle torquata</i>	Seen in Several places
126	<b>Amazon Kingfisher</b> <i>Chloroceryle amazona</i>	Seen in TM, April 29 and Summit P May 1
127	<b>Green Kingfisher</b> <i>Chloroceryle americana</i>	Seen in Several places
128	<b>Green-and-rufous Kingfisher</b> <i>Chloroceryle inda</i>	Seen in, Ammo Ponds April 27
129	<b>American Pygmy Kingfisher</b> <i>Chloroceryle aenea</i>	Seen in TM, April 29 and OG May 2
130	<b>Tody Motmot</b> <i>Hylomanes momotula</i>	Seen in El Canopy Adventure May 6
131	<b>Blue-crowned Motmot</b> <i>Momotus momota</i>	Seen in Several places
132	<b>Rufous Motmot</b> <i>Baryphthengus martii</i>	Seen in Several places
133	<b>Broad-billed Motmot</b> <i>Electron platyrhynchum</i>	Seen in Several places
134	<b>White-necked Puffbird</b> <i>Notharchus macrorhynchus</i>	Heard only in OG May 2
135	<b>Black-breasted Puffbird</b> <i>Notharchus pectoralis</i>	Seen in PP April 28
136	<b>Emerald Toucanet</b> <i>Aulacorhynchus prasinus</i>	Seen in Altos del Maria May 5
137	<b>Collared Aracari</b> <i>Pteroglossus torquatus</i>	Seen in Several places
138	<b>Keel-billed Toucan</b> <i>Ramphastos sulfuratus</i>	Seen in Several places
139	<b>Yellow-eared Toucanet</b> <i>Selenidera spectabilis</i>	Seen in Altos del Maria May 5
140	<b>Chestnut-mandibled Toucan</b> <i>Ramphastos swainsonii</i>	Seen in Canopy Tower, May 2 and 3.
141	<b>Black-cheeked Woodpecker</b> <i>Melanerpes pucherani</i>	Seen in SH, April 27 and PL April 30
142	<b>Red-crowned Woodpecker</b> <i>Melanerpes rubricapillus</i>	Seen in Several places
143	<b>Cinnamon Woodpecker</b> <i>Celeus loricatus</i>	Heard only in PP April 28 and May 1
144	<b>Lineated Woodpecker</b> <i>Dryocopus lineatus</i>	Seen in Several places
145	<b>Crimson-crested Woodpecker</b> <i>Campephilus melanoleucos</i>	Heard only in SH, Ammo Ponds April 27
146	<b>Pale-breasted Spinetail</b> <i>Synallaxis albescens</i>	Seen in TM, April 29
147	<b>Red-faced Spinetail</b> <i>Cranioleuca erythropis</i>	Seen in Altos del Maria May 5
148	<b>Spotted Barbtail</b> <i>Premnoplex brunnescens</i>	Seen in El Valle Gaital Hill May 7
149	<b>Plain Xenops</b> <i>Xenops minutus</i>	Seen in Several places
150	<b>Scaly-throated Leaf-tosser</b> <i>Sclerurus guatemalensis</i>	Seen in PP April 28

	Species	Location
151	<b>Plain-brown Woodcreeper</b> <i>Dendrocincla fuliginosa</i>	Seen in Several places
152	<b>Northern Barred-Woodcreeper</b> <i>Dendrocolaptes sanctithomae</i>	Seen in Altos del Maria May 5
153	<b>Cocoa Woodcreeper</b> <i>Xiphorhynchus susurrans</i>	Seen in Several places
154	<b>Spotted Woodcreeper</b> <i>Xiphorhynchus erythropygius</i>	Seen in Several places
155	<b>Black-striped Woodcreeper</b> <i>Xiphorhynchus lachrymosus</i>	Seen in PP April 28
156	<b>Olivaceous Woodcreeper</b> <i>Sittasomus griseicapillus</i>	Seen in PL, April 30
157	<b>Wedge-billed Woodcreeper</b> <i>Glyphorhynchus spirurus</i>	Seen in La Mesa May 6
158	<b>Strait-billed Woodcreeper</b>	Seen in TM, April 29.
159	<b>Fasciated Antshrike</b> <i>Cymbilaimus lineatus</i>	Seen in PP, May 1 and OG May 2
160	<b>Barred Antshrike</b> <i>Thamnophilus doliatus</i>	Seen in Several places
161	<b>Great Antshrike</b> <i>Taraba major</i>	Seen in EI Canopy Lodge, May 6
162	<b>Western Slaty-Antshrike</b> <i>Thamnophilus atrinucha</i>	Seen in Several places
163	<b>Plain Antvireo</b> <i>Dysithamnus mentalis</i>	Seen in Gaital Hill May 7
164	<b>Checker-throated Antwren</b> <i>Myrmotherula fulviventris</i>	Seen in Several places
165	<b>White-flanked Antwren</b> <i>Myrmotherula axillaries</i>	Seen in PP April 28
166	<b>Dot-winged Antwren</b> <i>Microrhopias quixensis</i>	Seen in Several places
167	<b>Dusky Antbird</b> <i>Cercomacra tyrannina</i>	Seen in OG May 2
168	<b>Jet Antbird</b> <i>Cercomacra nigricans</i>	Seen in OG May 2
169	<b>White-bellied Antbird</b> <i>Myrmeciza longipes</i>	Seen in EI Canopy Lodge, May 4
170	<b>Chestnut-backed Antbird</b> <i>Myrmeciza exsul</i>	Seen in PP, May 1 and Canopy Lodge, May 7
171	<b>Dull-mantled Antbird</b> <i>Myrmeciza laemosticta</i>	Seen in EI Canopy Adventure, May 7
172	<b>Spotted Antbird</b> <i>Hylophylax naevioides</i>	Seen in PP April 28 and PL, April 30
173	<b>Bicolored Antbird</b> <i>Gymnopithys leucaspis</i>	Seen in Several places
174	<b>Ocellated Antbird</b> <i>Phaenostictus mcleannani</i>	Seen in Several places
175	<b>Black-faced Antthrush</b> <i>Formicarius analis</i>	Seen in OG May 2 and May 5 at
176	<b>Streak-chested Antpitta</b> <i>Hylopezus perspicillatus</i>	Heard only in PP April 28 and May 1
177	<b>Black-crowned Antpitta</b> <i>Pittasoma michleri</i>	Seen in Altos del Maria May 5
178	<b>Blue Cotinga</b> <i>Cotinga nattererii</i>	Seen in Several places
179	<b>Purple-throated Fruitcrow</b> <i>Querula purpurata</i>	Seen in PP April 28 and May 1
180	<b>Golden-collared Manakin</b> <i>Manacus vitellinus</i>	Seen in Several places
181	<b>White-ruffed Manakin</b> <i>Corapipo altera</i>	Seen in EI Gaital Hill May 7
182	<b>Lance-tailed Manakin</b> <i>Chiroxiphia lanceolata</i>	Seen in EI Chiru May 4
183	<b>Blue-crowned Manakin</b> <i>Pipra coronata</i>	Seen in PL, April 30
184	<b>Red-capped Manakin</b> <i>Pipra mentales</i>	Seen in SH, April 27 and PP April 28
185	<b>Brown-capped Tyrannulet</b> <i>Ornithion brunneicapillum</i>	Seen in, Chagres River, April 30
186	<b>Southern Beardless Tyrannulet</b> <i>Camptostoma obsoletum</i>	Seen in Several places
187	<b>Mouse-colored Tyrannulet</b> <i>Phaeomyias murina</i>	Seen in TM, April 29 and EI Chiru May 4
188	<b>Yellow-crowned Tyrannulet</b> <i>Tyrannulus elatus</i>	Seen in, Ammo Ponds April 27 and TM, April 29
189	<b>Forest Elaenia</b> <i>Myiopagis gaimardii</i>	Seen in OG May 2
190	<b>Lesser Elaenia</b> <i>Elaenia chiriquensis</i>	Seen in Several places
191	<b>Yellow-bellied Elaenia</b> <i>Elaenia flavogaster</i>	Seen in Several places
192	<b>Yellow Tyrannulet</b> <i>Capsiempis flaveola</i>	Seen in TM, April 29
193	<b>Ochre-bellied Flycatcher</b> <i>Mionectes oleagineus</i>	Seen in PP, May 1 and Gaital Hill May 7
194	<b>Paltry Tyrannulet</b> <i>Zimmerius vilissimus</i>	Seen in Several places
195	<b>Black-capped Pygmy-Tyrant</b> <i>Myiornis atricapillus</i>	Heard only in PL, April 30
196	<b>Scale-crested Pygmy-Tyrant</b> <i>Lophotriccus pileatus</i>	Seen in Altos del Maria May 5 and 7 at Gaital Hill
197	<b>Pale-eyed Pygmy-Tyrant</b> <i>Lophotriccus pilaris</i>	Seen in EI Valle EI Chiru May 4
198	<b>Southern Bentbill</b> <i>Oncostoma olivaceum</i>	Seen in SH, April 27
199	<b>Common Tody-Flycatcher</b> <i>Todirostrum cinerium</i>	Seen in Several places
200	<b>Brownish Flycatcher</b> <i>Cnipodectes subbrunneus</i>	Seen in PP April 28 and May 1
201	<b>Olivaceous Flatbill</b> <i>Rhynchocyclus olivaceus</i>	Seen in SH, April 27 and PL, April 30
202	<b>Yellow-olive Flycatcher</b> <i>Tolmomyias sulohurescens</i>	Seen in Cara Iguana Trail May 3
203	<b>Yellow-margined Flycatcher</b> <i>Tolmomyias assimilis</i>	Seen in SH, April 27 and PP, May 1
204	<b>Golden-crowned Spadebill</b> <i>Platyrinchus coronatus</i>	Seen in PL, April 30

	Species	Location
205	<b>White-throated Spadebill</b> <i>Platyrinchus mystaceus</i>	Seen in Gaital Hill May 7
206	<b>Ruddy-tailed Flycatcher</b> <i>Terenotriccus erythrus</i>	Seen in PP April 28
207	<b>Tufted Flycatcher</b> <i>Mitrephanes phaeocercus</i>	Seen in Altos del Maria May 5
208	<b>Olive-sided Flycatcher</b> <i>Contopus cooperi</i>	Seen in SH, April 27 and , CA April 29
209	<b>Tropical Pewee</b> <i>Contopus cinereus</i>	Seen in Chagres River, April 30
210	<b>Western Wood-Pewee</b> <i>Contopus sordidulus</i>	Seen in Altos del Maria May 5
211	<b>Eastern Wood-Pewee</b> <i>Contopus virens</i>	Seen in Several places
212	<b>Pied Water-Tyrant</b> <i>Fluvicola pica</i>	Seen in TM April 29
213	<b>Black Phoebe</b> <i>Sayornis nigricans</i>	Seen in CA April 29
214	<b>Bright-rumped Attila</b> <i>Attila spadiceus</i>	Seen in Altos del Maria May 5
215	<b>Rufous Mourner</b> <i>Rhytipterna holerythra</i>	Seen in PP April 28
216	<b>Dusky-capped Flycatcher</b> <i>Myiarchus tuberculifer</i>	Seen in, CA April 29 and Summit Ponds May 1
217	<b>Panama Flycatcher</b> <i>Myiarchus panamensis</i>	Seen in Several places
218	<b>Great Crested Flycatcher</b> <i>Myiarchus crinitus</i>	Seen in, Ammo Ponds April 27
219	<b>Lesser Kiskadee</b> <i>Philohydor lector</i>	Seen in Several places
220	<b>Great Kiskadee</b> <i>Pitangus sulphuratus</i>	Seen in Several places
221	<b>Boat-billed Flycatcher</b> <i>Megarynchus pitangua</i>	Seen in, Summit G May 1 and El Chiru May 4
222	<b>Rusty-margined Flycatcher</b> <i>Myiozetetes cayanensis</i>	Seen in, Ammo Ponds April 27 and, Summit P May 1
223	<b>Social Flycatcher</b> <i>Myiozetetes similis</i>	Seen in Several places
224	<b>Streaked Flycatcher</b> <i>Myiodynastes maculates</i>	Seen in Several places
225	<b>Sulphur-bellied Flycatcher</b> <i>Myiodynastes luteiventris</i>	Seen in TM, April 29
226	<b>Piratic Flycatcher</b> <i>Legatus leucophaeus</i>	Seen in, Ammo Ponds April 27
227	<b>Tropical Kingbird</b> <i>Tyrannus melancholicus</i>	Seen in Several places
228	<b>Eastern Kingbird</b> <i>Tyrannus tyrannus</i>	Seen in Several places
229	<b>Fork-tailed Flycatcher</b> <i>Tyrannus savanna</i>	Seen in Several places
230	<b>White-winged Becard</b> <i>Pachyramphus polychopterus</i>	Seen in Chagres River, April 30
231	<b>Masked Tityra</b> <i>Tityra semifasciata</i>	Seen in Several places
232	<b>Gray-breasted Martin</b> <i>Progne chalybea</i>	Seen in Several places
233	<b>Mangrove Swallow</b> <i>Tachycineta albilinea</i>	Seen in Ammo P April 28 and Summit Ponds May 2
234	<b>Blue and White Swallow</b> <i>Pygochelidon cyanoleuca</i>	Seen in El Valle Town May 7
235	<b>White-thighed Swallow</b> <i>Neochelidon tibialis</i>	Seen in Canopy Lodge May 4 and 7
236	<b>Southern Rough-winged Swallow</b> <i>Stelgidopteryx ruficollis</i>	Seen in Several places
237	<b>Bank Swallow</b> <i>Riparia riparia</i>	Seen in El Chiru May 4.
238	<b>Barn Swallow</b> <i>Hirundo rustica</i>	Seen in Several places
239	<b>Black-bellied Wren</b> <i>Thryothorus fasciatoventris</i>	Seen in SH, April 27
240	<b>Rufous-breasted Wren</b> <i>Thryothorus rutilus</i>	Seen in Several places
241	<b>Bay Wren</b> <i>Thryothorus nigricapillus</i>	Seen in Several places
242	<b>Buff-breasted Wren</b> <i>Thryothorus leucotis</i>	Seen in, Ammo Ponds April 27
243	<b>Rufous-and-White Wren</b> <i>Thryothorus rufalbus</i>	Seen in Several places
244	<b>Plain Wren</b> <i>Thryothorus modestus</i>	Seen in, Ammo Ponds April 27
245	<b>House Wren</b> <i>Troglodytes aedon</i>	Seen in Several places
246	<b>White-breasted Wood-Wren</b> <i>Henicorhina leucosticte</i>	Seen in, CA April 29 and Canopy Adv May 6
247	<b>Gray-breasted Wood-Wren</b> <i>Henicorhina leucophrys</i>	Seen in Altos del Maria May 5 and 7 at Gaital Hill
248	<b>Scaly-breasted Wren</b> <i>Microcerculus marginatus</i>	Heard only in El Valle Gaital Hill May 7
249	<b>Song Wren</b> <i>Cyphorhinus phaeocephalus</i>	Seen in PL, April 30
250	<b>Clay-colored Robin</b> <i>Turdus grayi</i>	Seen in Several places
251	<b>Pale-vented Thrush</b> <i>Turdus obsoletus</i>	Seen in Altos del Maria May 5 and 6 at La Mesa
252	<b>Tropical Mockingbird</b> <i>Mimus gilvus</i>	Seen in Several places
253	<b>Orange-billed Nightingale-Thrush</b> <i>Catharus aurantiirostris</i>	Seen in Canopy Lodge May 6 and 7.
254	<b>Swainson's Thrush</b> <i>Catharus ustulatus</i>	Seen in Several places
255	<b>Tawny-faced Gnatwren</b> <i>Microbates cinereiventris</i>	Seen in Canopy Adv May 7
256	<b>Long-billed Gnatwren</b> <i>Ramphocaenus melanurus</i>	Seen in, Summit Ponds May 1
257	<b>Tropical Gnatcatcher</b> <i>Poliophtila plumbea</i>	Seen in Several places
258	<b>Black-chested Jay</b> <i>Cyanocorax affinis</i>	Seen in Several places

	Species	Location
259	<b>Red-eyed Vireo</b> <i>Vireo olivaceus</i>	Seen in Several places
260	<b>Yellow-green Vireo</b> <i>Vireo flavoviridis</i>	Seen in Several places
261	<b>Scrub Greenlet</b> <i>Verdillo flavipes</i>	Seen in OG May 2
262	<b>Golden-fronted Greenlet</b> <i>Hylophilus aurantiifrons</i>	Seen in OG May 2
263	<b>Lesser Greenlet</b> <i>Hylophilus decurtatus</i>	Seen in Several places
264	<b>Green Shrike-Vireo</b> <i>Vireolanius pulchellus</i>	Seen in Several places
265	<b>Rufous-browed Peppershrike</b> <i>Cyclarhis gujanensis</i>	Seen in El Chiru May 4
266	<b>Lesser Goldfinch</b> <i>Carduelis psaltria</i>	Seen in Several places
267	<b>Tennessee Warbler</b> <i>Vermivora peregrine</i>	Seen in Canopy Tower
268	<b>Yellow Warbler</b> <i>Dendroica petechia</i>	Seen in Several places
269	<b>Magnolia Warbler</b> <i>Dendroica magnolia</i>	Seen in SH, April 27
270	<b>Blackburnian Warbler</b> <i>Dendroica fusca</i>	Seen in SH, April 27 and PL, April 30
271	<b>Northern Waterthrush</b> <i>Seiurus noveboracensis</i>	Seen in Several places
272	<b>Mourning Warbler</b> <i>Oporornis Philadelphia</i>	Seen in Canopy Lodge May 6 and 7.
273	<b>Canada Warbler</b> <i>Wilsonia Canadensis</i>	Seen in SH, April 27
274	<b>Rufous-capped Warbler</b> <i>Basileuterus rufifrons</i>	Seen in Several places
275	<b>Bananaquit</b> <i>Coereba flaveola</i>	Seen in Several places
276	<b>Common Bush-Tanager</b> <i>Chlorospingus ophthalmicus</i>	Seen in Altos del Maria May 5 and 7 at Gaital Hill
277	<b>Rosy Thrush-Tanager</b> <i>Rhodinocichla rosea</i>	Heard only in Canopy Lodge May 7
278	<b>Dusky-faced Tanager</b> <i>Mitrospingus cassinii</i>	Seen in Several places
279	<b>Olive Tanager</b> <i>Chlorothraupis carmioli</i>	Heard only in, CA April 29
280	<b>Gray-headed Tanager</b> <i>Eucometis penicillata</i>	Seen in SH, April 27 and PP, May 1
281	<b>White-shouldered Tanager</b> <i>Tachyphonus luctuosus</i>	Seen in Several places
282	<b>Tawny-crested Tanager</b> <i>Tachyphonus delatrii</i>	Seen in Canopy Adv May 4 and 6 at La Mesa
283	<b>White-lined Tanager</b> <i>Tachyphonus rufus</i>	Seen in Several places
284	<b>Red-crowned Ant-Tanager</b> <i>Habia rubica</i>	Seen in Several places
285	<b>Red-throated Ant-Tanager</b> <i>Habia fuscicauda</i>	Seen in PP, May 1 and OG May 2
286	<b>Hepatic Tanager</b> <i>Piranga flava</i>	Seen In CA April 29 and Altos del Maria May 5.
287	<b>Crimson-backed Tanager</b> <i>Ramphocelus dimidiatus</i>	Seen in Several places
288	<b>Flame-rumped Tanager</b> <i>Ramphocelus flammigerus</i>	Seen in Several places
289	<b>Blue-gray Tanager</b> <i>Thraupis episcopus</i>	Seen in Several places
290	<b>Palm Tanager</b> <i>Thraupis palmarum</i>	Seen in Several places
291	<b>Yellow-crowned Euphonia</b> <i>Euphonia luteicapilla</i>	Seen in Several places
292	<b>Thick-billed Euphonia</b> <i>Euphonia laniirostris</i>	Seen in Several places
293	<b>White-vented Euphonia</b> <i>Euphonia minuta</i>	Seen in, CA April 29
294	<b>Tawny-capped Euphonia</b> <i>Euphonia anaeae</i>	Seen in Altos del Maria May 5 and 7 at Gaital Hill
295	<b>Emerald Tanager</b> <i>Tangara florida</i>	Seen in, CA April 29
296	<b>Plain-colored Tanager</b> <i>Tangara inornata</i>	Seen in Several places
297	<b>Speckled Tanager</b> <i>Tangara guttata</i>	Seen in, CA April 29
298	<b>Silver-throated Tanager</b> <i>Tangara icterocephala</i>	Seen in Several places
299	<b>Bay-headed Tanager</b> <i>Tangara gyrola</i>	Seen in Several places
300	<b>Golden-hooded Tanager</b> <i>Tangara larvata</i>	Seen in Several places
301	<b>Scarlet-thighed Dacnis</b> <i>Dacnis venusta</i>	Seen in Several places
302	<b>Blue Dacnis</b> <i>Dacnis cayana</i>	Seen in Several places
303	<b>Green Honeycreeper</b> <i>Chlorophanes spiza</i>	Seen in Several places
304	<b>Red-legged Honeycreeper</b> <i>Cyanerpes cyaneus</i>	Seen in Several places
305	<b>Blue-black Grassquit</b> <i>Volatinia jacarina</i>	Seen in Several places
306	<b>Variable Seedeater</b> <i>Sporophila americanatorqueola</i>	Seen in Several places
307	<b>Yellow-bellied Seedeater</b> <i>Sporophila nigricollis</i>	Seen in Several places
308	<b>Ruddy-breasted Seedeater</b> <i>Sporophila minuta</i>	Seen in Several places
309	<b>Thick-billed Seed-Finch</b> <i>Oryzoborus funereus</i>	Seen in Several places
310	<b>Yellow-faced Grassquit</b> <i>Tiaris olivacea</i>	Seen in Several places
311	<b>Chestnut-capped Brush-Finch</b> <i>Buarremon brunneinucha</i>	Seen in Altos del Maria May 5
312	<b>Orange-billed Sparrow</b> <i>Arremon aurantiirostris</i>	Seen in Several places

	Species	Location
313	<b>Black-striped Sparrow</b> <i>Arremonops conirostris</i>	Seen in Several places
314	<b>Streaked Saltator</b> <i>Saltator striatipectus</i>	Seen in Several places
315	<b>Buff-throated Saltator</b> <i>Saltator maximus</i>	Seen in Several places
316	<b>Black-headed Saltator</b> <i>Saltator atriceps</i>	Seen in Canopy Lodge May 6
317	<b>Slate-colored Grosbeak</b> <i>Saltator grossus</i>	Heard only in PP April 28 and
318	<b>Black-faced Grosbeak</b> <i>Caryothraustes poliogaster</i>	Seen in Altos del Maria May 5
319	<b>Blue-black Grosbeak</b> <i>Cyanocompsa cyanooides</i>	Seen in SH, April 27 and PL, April 30
320	<b>Red-breasted Blackbird</b> <i>Sturnella militaris</i>	Seen in El Chiru May 4.
321	<b>Eastern Meadowlark</b> <i>Sturnella magna</i>	Seen in El Chiru May 4
322	<b>Great-tailed Grackle</b> <i>Cassidix mexicanus</i>	Seen in Several places
323	<b>Shiny Cowbird</b> <i>Molothrus bonariensis</i>	Seen in Several places
324	<b>Giant Cowbird</b> <i>Molothrus oryzivorus</i>	Seen in, Summit Garden May 1
325	<b>Yellow-backed Oriole</b> <i>Icterus chrysater</i>	Seen in Several places
326	<b>Yellow-billed Cacique</b> <i>Amblycercus holosericeus</i>	Seen in TM, April 29 and May 7 at Canopy Lodge
327	<b>Scarlet-rumped Cacique</b> <i>Cacicus uropygialis</i>	Seen in Several places
328	<b>Yellow-rumped Cacique</b> <i>Cacicus cela</i>	Seen in Several places
329	<b>Chestnut-headed Oropendola</b> <i>Psarocolius wagleri</i>	Seen in Several places
330	<b>Black-necked Stilt</b> <i>Himantopus mexicanus</i>	Seen in TM, April 29
331	<b>Empidonax</b> sp.	Seen in TM, April 29
